Face-to-Face Meeting before ICANN61

- **Friday 8 December:** Deadline to confirm to constituency travel whether the RDS-WHOIS2 Review Team will be holding a face-to-face meeting in Puerto Rico before ICANN61 (10 mars 2018 - 15 mars 2018).
- If yes, confirm the number of days needed (1, 2)?
- Members identified as receiving funding from other sources: Alan, Susan and Cathrin. Clarification needed on who you had identified on the review team as receiving funding from other sources, as per your input on the last leadership call

Terms of Reference and work plan

- **Approval of ToR and Work Plan needed** from the Review Team.
- **Deadline** set by Review Team was **November 28**.
- **Related email** from Chris Disspain:
 - In its [resolution](#) on 3 February 2017, the Board requested that the RDS Review Team develop and deliver to the Board its approved Terms of Reference and Work Plan by the 15th of May 2017, to ensure that the team's scope and timeline are consistent with the requirements of the ICANN Bylaws.
 - The Board is aware that the review team was not officially formed until 2 June 2017, and as a result, additional time is needed for the review team to deliver the Terms of Reference and work plan.
 - The Board understands that the review team discussed a new proposed timeline with me during our face-to-face meeting in Brussels on 2-3 October 2017, and the Review Team is making steady progress toward its target to submit the documents **by the end of November**. **or early December**. The Board looks forward to providing input as appropriate once approved Terms of Reference and Work Plan have been finalized and submitted.
- **Open action items**
 - Work Plan Review to identify any needed edits, reflect milestone updates (if any) in ToR
 - Plenary meeting adoption of ToR and Work Plan by Review Team

WHOIS1 Rec #1 - Strategic Priority

Created by Alice Jansen, last modified by Lisa Priker 31 minutes ago

★Objective

Consistent with ICANN's mission and Bylaws, Section 4.6(e)(iv), the Review Team will (a) evaluate the extent to which ICANN Org has implemented each prior Directory Service Review recommendation (noting differences if any between recommended and implemented steps), (b) assess to the degree practical the extent to which implementation of each recommendation was effective in addressing the issue identified by the prior RT or generated additional information useful to management and evolution of WHOIS (RDS), and (c) determine if any specific measurable steps should be recommended to enhance results achieved through the prior RT's recommendations. This includes developing a framework to measure and assess the effectiveness of recommendations, and applying that approach to all areas of WHOIS originally assessed by the prior RT (as applicable).

RT1 Recommendations to be assessed by this subgroup:
