Fabro Steibel: (09:28) Agree

David Taylor: (09:29) gao can you hear us?

Gaongalelwe Mosweu (PC): (09:30) only in bits and pieces. AT this moment I cannot hear anything

Gaongalelwe Mosweu (PC): (09:31) My chat response is also clearly delayed.

Lauren Kapin: (09:32) Gao, what I had asked was whether you agree with the revised recommendation 3.

David Taylor: (09:34) We could perhaps say: The community is

David Taylor: (09:36) The community should ensure that the party wishing to file the DADRP is an affected party in one way or another. with that in mind it may be an individual who has been abused by a phishing scam, a brand that is seeing its brand used in an abusive manner, or a filing by a public interest body"

David Taylor: (09:36) phishing

Gaongalelwe Mosweu (PC): (09:37) I cannot see it as it currently reads now, but I agree in principle if the essence has not changed from the original one we had on wholesale price information.

David Taylor: (09:37) SSR2 for the To here also

Calvin Browne 2 2: (09:38) how would this fit in with the various contracts that regulate the contract as it stands?

Jonathan Zuck: (09:42) that's a great idea. let's recruit folks to do this to grease the skids

Eleeza Agopian: (09:42) Yes, it would likely come from a policy directive.

Calvin Browne 2: (09:50) i can hear you

Eleeza Agopian: (09:50) we can hear you david

David Taylor: (09:54) Do we have ICANN Compliance statistics on DNS abuse and complaints filed and whether resolved with a take down or not?

Brian Aitchison: (09:55) David I don't recall us having stats with that level of granularity but I can check

Brian Aitchison: (09:55) Will take that as an action item

David Taylor: (09:59) Thanks Brian

Eleeza Agopian: (09:59) I am fairly certain compliance is planning on publishing some information on complaints related to abuse in Oct.

Eleeza Agopian: (09:59) but we will double check.

Brenda Brewer: (10:02) Gao and I have been chatting behind the scenes

Brenda Brewer: (10:02) hopefully we can establish a better connection for Gao going forward.

Jean-Baptiste Deroulez: (10:03) Can the version projected on screen be shared with the review team ?

Jean-Baptiste Deroulez: (10:03) sure
