

Hi folks,

For Wednesday's call we'll discuss our ongoing work on revised recommendations and also hopefully receive an update on the INTA subgroup activities. In preparation for Wednesday's call, please review the attached guidance on recommendations. **Everyone** should review their assigned recommendations to ensure that they apply these guidelines. Also note that our revised work plan will likely set late August as the deadline for any revisions to the recommendations and related chapters of the draft report. Hence, please keep this deadline mind as you review your respective recommendations and related text.

As a reminder, here is where we stand on consolidation and assignments (some have changed due to the consolidations):
