

Michelle DeSmyter:Dear All, welcome to the Privacy and Proxy Services Accreditation IRT Meeting on Tuesday, 09 January 2018 at 15:00 UTC.

Margie Milam:Happy New Year!

Amy Bivins:Happy New Year! We'll get started in a couple of minutes

steve metalitz>Welcome back Amy!

Sarah Wyld:Could you please tell us the page # to make it easy to quickly find the sections? Thanks!

Sarah Wyld:Thanks

Peter Roman:not right now

steve metalitz:@Sara what do you think was the conclusion that is not reflected? Re 3.12.2.

Sara Bockey:@ Steve, The blue text in 3.12.2

Sara Bockey:Sorry, we had agreed on the text, minus the blue in 3.12.2

Margie Milam:Can you read how it will be revised

Margie Milam:yes

Sara Bockey:yes

steve metalitz:OK with deleting pending agreement re LE framework

Peter Roman:If we deletethe text in blue, is that goign to create a conflict where there are either two systems described in teh document?

Peter Roman:ok

Sara Bockey:Yes, Steve is correct. The language is not the same and the WG report.

Sara Bockey:*as the

Margie Milam:yes- follow the final report

Margie Milam:that works for me

steve metalitz:Are we skipping 3.15 and 3.16?

Alex Deacon:agree with steve that the language in 3.17.2 isn't different (in meaning) from what was proposed in the final report

Margie Milam:need labeling somewhere

Margie Milam:going offline but will remain on telephone line

steve metalitz:+1 to Peter's point, 3.16.2.2 should apply only to relay requests.

Peter Roman:+1 to Steve

Alex Deacon:Agree clarification in 3.16.2 is a great way to address this. this is only about relay.

Peter Roman:old

Vlad Dinculescu:Agree with Steve. Stats are stats, as long as they dont contain private info

Alex Deacon:agree with steve re this anonymous data does not fall under the GDPR umbrella.

Eric Rokobauer:great thanks

Eric Rokobauer:My apologies but I will need to drop off at the top of hour

steve metalitz:Sorry, did not note 5.5.9 which addresses Lindsay's concern. Will take a look at that....

Peter Roman:That sounds reasonable to me, assumign that it is a fact based decision as to the PP provider

Vlad Dinculescu:Agree with Roger

steve metalitz:This turns on to what extent the grounds for termination in RAA and PPAA are identical.

Roger D Carney:Agree Steve, but I think it gets tricky because you may breach in an action for providing the privacy service but not in providing registrar service

Margie Milam 2:I thought we were deferring GDPR related changes for now

Margie Milam 2:agree with Steve

Alex Deacon:Agree with Steve's proposed change

Leana Melnichuk:I agree with Margie

Peter Roman:Is there a particular problem with this section?

steve metalitz:I think as drafted this 7.4.5.2 goes beyond changes to consensus policies.....

Lisa Villeneuve:Happy new year everyone!

steve metalitz:thanks all!

Vlad Dinculescu:Thanks all

Peter Roman:Thanks!

Brian J Winterfeldt:Thanks all!
