

RDS PDP WG Poll - 6 February

During our 6 February 2018 meeting, the RDS PDP WG considered criteria for determining whether proposed purposes are legitimate for processing registration data. This poll gives all WG members an opportunity to consider and express their views about revised criteria proposed during discussion of 30 January Q2 results. Poll results will be used to inform deliberation during future WG meetings and on-list.

Any WG member who did not attend the 6 February 2018 WG meeting is expected to catch up on WG discussion before taking this poll. This is important to better understand poll questions and avoid repeating discussions. Meeting notes and materials, including transcripts and recordings, can be found here: <https://community.icann.org/x/9wq8B>

This poll will close at COB Saturday 10 February 2018.

As previously announced, by submitting a response to this poll, you are granting permission for your entire response - including WG member name and response timestamp - to be included in published poll results. Responses submitted by WG members are not assumed to reflect the views of any organization with which they may be affiliated.

*** 1. Your name (must be RDS PDP WG Member - not WG Observer - to participate in polls)**

If you are a WG Observer and wish to participate in polls, you must upgrade to WG Member to do so.

Please do NOT participate in this poll if you are a WG Observer who has not upgraded to WG Member.

2. Criterion relating to ICANN's Mission

As the WG has deliberated on specific purposes, differing viewpoints have been caused in part by differing criteria used to determine legitimacy. To overcome this, the WG paused its deliberation on specific purposes to consider a broader question: *What makes a purpose legitimate for processing registration data?*

When answering this question, refer to the following GDPR definition of "processing:"

'processing' means any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction;

In our 6 February call, the WG reviewed last week's poll results and revised the proposed criteria. Both support and opposition were expressed on the following statement:

Any purpose for processing registration data must be consistent with ICANN's mission.

- "Processing" includes but is not limited to data collection. Do not assume that all criteria for processing will be sufficient for collection; this will be deliberated separately.
- Similarly, do not assume that "processing" implies public or non-public access to data or who will have access; this will be deliberated separately.

Please indicate the one statement below that best reflects your view on this criterion. If you wish to abstain or have no opinion, simply skip this question.

- a) Any purpose for processing registration data must be consistent with ICANN's mission.
- b) Any purpose for processing registration data must not be inconsistent with ICANN's mission.
- c) Neither of these statements (please explain in the comment box below).

Rationale for your response

3. Criterion relating to DNS Functionality

In our 6 February call, more support than opposition was expressed for the following statement:

One criterion the WG will consider when determining whether a purpose for processing is legitimate is whether the purpose is inherent to the functionality of the DNS. This will not be the only criterion considered and is not a requirement that all purposes must satisfy.

- See Question 2 above for definition of "processing."
- "Processing" includes but is not limited to data collection. Do not assume that all criteria for processing will be sufficient for collection; this will be deliberated separately.
- Similarly, do not assume that "processing" implies public or non-public access to data or who will have access; this will be deliberated separately.

Please indicate below your level of support for this criterion: **Support, Could live with, Oppose, Undecided** . If you wish to abstain, simply skip this question.

- a) I support this statement.
- b) I could live with this statement.
- c) I oppose this statement (please explain below).
- d) I am undecided about this statement.

Rationale for your response

Do you think reaching rough consensus on the above statement will be useful to the WG when it deliberates on possible purposes for processing registration data? If you wish to abstain, simply skip this question.

- Yes
- No
- Undecided

Rationale for your response

Please click the Submit button below to record your responses.

By submitting a response to this poll, you are granting permission for your entire response - including WG member name and response timestamp - to be included in published poll results.

Input gathered through this poll will be used as input to further WG deliberation on charter questions. Thank you for participating in this poll.
