

**Adobe Connect - Chat Transcript from RDS WHOIS2 Plenary #21
23 February 2018**

Brenda Brewer: (2/23/2018 06:54) Good day all! Welcome to RDS-WHOIS2 Plenary #21 on 23 February 2018 @ 13:30 UTC.

Brenda Brewer: (06:55) Please note this meeting will be recorded. When not speaking, mute your phones by pressing *6. Press *6 to unmute. Thank you.

Alan Greenberg: (07:33) Can we please have the phone numbers identified.

Jean-Baptiste Deroulez: (07:34) @Alan, I have asked Brenda to do so. thank you

Stephanie Perrin: (07:38) are you seeking comments from the team or not?

Alan Greenberg: (07:39) @Stephanie, on blog post? Yes

Stephanie Perrin: (07:42) great, deadline?

Stephanie Perrin: (07:43) absolutely, seems like enough time

Stephanie Perrin: (07:43) it is pretty short

Stephanie Perrin: (07:44) Folks are up to their necks in GDPR at the moment, at least I am

Lisa Phifer: (07:44) Note that the content of the blog post is largely from the ToR itself

Stephanie Perrin: (07:44) That is what I was saying, the piece is very short

Stephanie Perrin: (07:46) I am just noting that if there is frustration about how many people are actively engaged in subgroup work and indeed the participation on this call....

Lisa Phifer: (07:47) Thomas can you please send those inputs to the subgroup mailing list

Stephanie Perrin: (07:47) we are all swamped at the moment

Jean-Baptiste Deroulez: (07:47) Anything new subcall scheduled at 15:00 UTC, and Law Enforcement at 16:00 UTC.

Stephanie Perrin: (07:52) I will be driving through freezing rain at the time, would appreciate a dialout at 613-xxx-xxxx if you dont mind Jean-Baptiste. How many do we expect on that call?

Chris: (07:52) My humble apologies...I am stuck on a conferecne call and so haven't been aboe to be on the RT call yet

Chris: (07:52) the call is still going so it looks like I won't make it

Lisa Phifer: (07:53) A possible request to ICANN would be a brieging on outreach to those unfamiliar to ICANN

Lisa Phifer: (07:54) That is, as part of fact finding, if you have not found that answer in materials already available

Lisa Phifer: (07:57) The pages Susan notes are part of the ICANN WHOIS portal

Lisa Phifer: (08:04) Susan you are a bit muffled

Lisa Phifer: (08:07) Billing contact is collected but not part of data displayed

Stephanie Perrin: (08:17) nope, it is in the contract, is it not?

Stephanie Perrin: (08:17) I am sure I read it somewhere in my research on the RAA

Stephanie Perrin: (08:17) So agree with Susan,

Lisa Phifer: (08:22) new hand before we leave prior agenda item

Lisa Phifer: (08:23) I will raise under AOB

Stephanie Perrin: (08:28) he has a regular meeting on that time

Alice Jansen: (08:31) Copy of work plan https://urldefense.proofpoint.com/v2/url?u=https-3A_community.icann.org_download_attachments_64084086_RDS-2DWHOIS2-2520Work-2520Plan-2520v11-2520-2D-25209-2520Feb-25202018.xlsx-3Fversion-3D1-26modificationDate-3D1518169456000-26api-3Dv2&d=DwIFaQ&c=FmY1u3PJp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=kbiQDH54980u4nTPfwdloDLY6-6F24x0ArAvhdeDvvc&m=Mt_7_NOhPFDVozlcvb2BGsk1Nykq_ztbnJeCqSyv5To&s=ooBJqKiHIXrFrBK3unEV9Dr15XORV70cY0C4IE6aco&e=

Stephanie Perrin: (08:32) I would vote for yes. For me travel is becoming excessive, (leaving aside the inconvenience of getting dead sick every time I get on a plane) and I would appreciate utilizing existing travel as much as possible. Flying in the cheapest seats economy, no lounge access, is causing more hardship for some volunteers than it does for others who have percs. I am in cattle class, I find it very very onerous.

Lisa Phifer: (08:33) Got it

Susan Kawaguchi: (08:34) https://urldefense.proofpoint.com/v2/url?u=https-3A_whois.icann.org_en_file_whois-2Dars-2Dphase-2D2-2Dcycle-2D5-2Dreport-2Dsyntax-2Dand-2Doperability-2Daccuracy&d=DwIFaQ&c=FmY1u3PJp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=kbiQDH54980u4nTPfwdloDLY6-6F24x0ArAvhdeDvvc&m=Mt_7_NOhPFDVozlcvb2BGsk1Nykq_ztbnJeCqSyv5To&s=nIwQRL2P7DBeo7xvWQ-L59BTCLOTJsEeDF0dFf4RmcY&e=

Susan Kawaguchi: (08:35) the 2017 Compliance report links to ARS reports and in that report it discusses NGF and GF registrations

Susan Kawaguchi: (08:38) Operability Accuracy – 2009 RAA Requirements The following section reviews the results of the operability accuracy tests against 2009 requirements¹³ by first looking at overall accuracy, then subgroup accuracy, followed by the reasons for error. It is important to note here that the only difference between 2013 and 2009 RAA operability requirements is that the 2009 RAA requirements do not require that information be present in the registrant email or telephone number fields, while 2013 RAA requirements do require the presence of information in these fields.
