Alice Jansen 2: (15:46) <http://mm.icann.org/pipermail/rds-whois2-safeguard/2018-February/000006.html>

Stephanie Perrin: (15:51) Who authored the document on the board at the moment, and is there a date?

Erika Mann: (15:51) It would be replication but we should understand the current practise well

Lisa Phifer: (15:51) Email from Alan

Stephanie Perrin: (15:52) Thanks.

Lisa Phifer: (15:52) to the Safeguarding Data subgroup - seel link above

Stephanie Perrin: (15:52) I would point out that there is a significant volume of proxy protected registrations, which are not public but are escrowed

Carlton Samuels: (15:53) @Alan: I can support your position. Avoid replication and maybe after examining existing practice maybe suggest gap remediation, if any

Lisa Phifer: (15:54) @Erika would you like repeat your comment here?

Lisa Phifer: (15:58) There is quite a bit of subgroup overlap - it would be difficult for subgroups to meet or take briefings during a F2F

Lisa Phifer: (16:00) The work plan also requires assembling subgroup findings after F2F prior to ICANN62 in order to complete the RT's work by the end of the year

Erika Mann: (16:10) Yes

Erika Mann: (16:12) Happy to help

Lili SUN: (16:12) Thanks Erika and Alan.

Erika Mann: (16:14) Lili - can you please send me the current work and papers I should look into?

Lili SUN: (16:14) Sure, will do after this call.

Erika Mann: (16:14) Thank you!

Erika Mann: (16:16) Agree with you Alan

Lisa Phifer: (16:19) +1 Alan - it is a busy time of year so book early

Chris: (16:20) :-)
