Aslam G Mohamed:Hello organizers can you crank up the audio a bit please.

Terri Agnew:will do

Javier Rúa-Jovet (ALAC):pls go back to previous slide

Annebeth Lange:I lost contact, just a moment

Annebeth Lange:Sorry, I call in again

Javier Rúa-Jovet (ALAC):thx

Terri Agnew:Annebeth is back on audio

Terri Agnew:@Aslam, the audio has been increased - any better on yours side?

Bruna Santos:Terri, it has improved!

Aslam G Mohamed:yes thank you Terri

Aslam G Mohamed:Country commonly known - would that include big Apple for New York and Bharat for India? I'm sort of confused by what the speaker just said!

jeff neuman:@Aslam - Commonly known as would include NYC for New York City. I don't believe commonly known as would include the Big Apple necessarily

Aslam G Mohamed:thanks Jeff

jeff neuman:Another commonly known as would include United States (as opposed to United States of America which is the official name)

Emily Barabas:Aslam, here is the text from the AGB: it is a name by which a country is commonly known, as demonstrated by evidence that the country is recognized by that name by an intergovernmental or treaty organization.

Javier Rúa-Jovet (ALAC):volume too low...

Mirjana Tasic .rs:volume too low

Javier Rúa-Jovet (ALAC):a bit better

Terri Agnew:I have adjusted volume, let me know if further adjustments are needed

Aslam G Mohamed:Thanks Emily. I will offline pursue the conversation for a link to the AGB list. I could not see it in your text.

Annebeth Lange:"Commonly known" is only for countries - not cities. So Holland for The Netherlands, for example

Emily Barabas:@Aslam, you can find the AGB here: https://urldefense.proofpoint.com/v2/url?u=https-3A_newgtlds.icann.org_en_applicants_agb&d=DwIFaQ&c=FmY1u3PJp6wrcrwlI3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpClgmkXhFzL7ar9Qfqa0AIGN-H4xR2EBk&m=ye3oiXb0XmYKYQpax-Gj56BKtHnf5FSAQJFRwlg1o6w&s=tWZiAlFwggphTjVdyzEzEjaD0ERU5IXJuefFlqeCXY&e=

Aslam G Mohamed:Thanks will check it out.

Emily Barabas:See section 2.2.1.4.1 Treatment of Country or Territory Names

Marita Moll:Can you release the slides so we can refer back?

Emily Barabas:Slides are released. You can also find them here: https://urldefense.proofpoint.com/v2/url?u=https-3A_community.icann.org_x_6g28B&d=DwIFaQ&c=FmY1u3PJp6wrcrwlI3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpClgmkXhFzL7ar9Qfqa0AIGN-H4xR2EBk&m=ye3oiXb0XmYKYQpax-Gj56BKtHnf5FSAQJFRwlg1o6w&s=Zn9b0nPNfSM9Qjyy2bV0PjpaW3c4ppvgeTo2olkHabU&e=

Cheryl Langdon-Orr (CLO):done

Cheryl Langdon-Orr (CLO):Perfect @Martin

Emily Barabas:Please see slide 7

jeff neuman:I think this is reference to the IDN

Javier Rúa-Jovet (ALAC):Correct

Javier Rúa-Jovet (ALAC):Thanks CLO!!!

Annebeth Lange:Very useful, CLO

Annebeth Lange:Perhaps Olga can say a little on early warning?

Aslam G Mohamed:Thanks Cheryl. It also gets complicated when you consider the French renditions of country names which is totally different from the English rendition. For example Germany and Allemagne. or Deutschland for that matter.

Javier Rúa-Jovet (ALAC):Very interesting @Aslam

Bruna Santos:not only french but most of latin based languages, @Aslam

Jelena Ozegovic:Question: what are in short, main goals of the WT5? I promise to read them latter in the ToR, but just wanted to hear them here simply explained :) Also, what do you think is the timeline for their completion?

jeff neuman:An Early Warning is not GAC Advice. An Early Warning does not create any presumption that an application will be denied

Aslam G Mohamed:Hi Jelena. My understanding of a m

Aslam G Mohamed:main goal is fixing the definition

Bruna Santos:<question> Could you also elaborate on when the Early warning and the GAC advice are needed?

Cheryl Langdon-Orr (CLO):it is meant to assist with process predictability

Maureen Hilyard:Sorry I have to leave. Will check the recording later. Thank you Annabeth and the team for this presentation

Bruna Santos:sorry about that, maybe you can refer me to any links on the matter.

Cheryl Langdon-Orr (CLO):bye @Maureen

jeff neuman:The topics of "Early Warning" and "GAC Advice" are topics that are covered under a separate work track within the Subsequent Procedures PDP. I believe those are in Work Track 3

Steve Chan:You can see how the Applicant Guidebook envisioned GAC Early Warnings to be handled in section 1.1.2.4 here:

https://urldefense.proofpoint.com/v2/url?u=https-3A_newgtlds.icann.org_en_applicants_agb&d=DwlFaQ&c=FmY1u3PJp6wrcrwl3mSVzgfkbPSS6sJms7xcl4I5cM&r=DRa2dXAvSFpClgmkXhFzL7ar9Qfqa0Algn-H4xR2EBk&m=ye3oiXb0XmYKYQpax-Gj56BKtHnf5FSAQJFRwlg1o6w&s=tWZiAlFwggphTjVdyzEzEjzaD0ERU5IXJuefFlqeCXY&e=

Bruna Santos:Perfect, thanks Jeff and Steve!

Javier Rúa-Jovet (ALAC):<Question> Can anybody briecomment on the timeframe of tfly he ".Amazon process"? Where is that: midway through? Nearing completion? Or nobody really knows?

Javier Rúa-Jovet (ALAC):briefly comment (sic)

Javier Rúa-Jovet (ALAC):sorry 4 typos

jeff neuman:Javier - I dont believe we have anyone on this call that could address that topic

Javier Rúa-Jovet (ALAC):ok

Javier Rúa-Jovet (ALAC):10-4

Javier Rúa-Jovet (ALAC):thx

Javier Rúa-Jovet (ALAC):Gracias Olga!

jeff neuman:I can jump in

Aslam G Mohamed:GAC seems to me unanimously opposed to .Amazon being granted Amazon.

Jim Prendergast:I thought GAC advice is issued when no one country objects. Not necessarily unanimous support for the position.

Susan Payne 2:However, in your "Africa" example this was one of the terms on the lists in the AGB where support/non-objection was required from the outset

Nigel Hickson:It is Consensus advice as defined.

Olga Cavalli - GAC - CO lead WT5:@Jim yes no opposition

Annebeth Lange:.amazon case shows the importance of having clear rules before the application round starts. This is one of the things we will try to accomplish in WT5

Olga Cavalli - GAC - CO lead WT5:@Annebeth exactly!!

Marita Moll:Thanks. Not strange at all

Aslam G Mohamed:That's why a clear definition is the most important objective for WT5

Olga Cavalli - GAC - CO lead WT5:@Aslam yes

Ashley Heineman (US GAC):For what it is worth, not every GAC member supported the objection to .amazon

Robin Gross:A good place to start on figuring out how this works is to read the ICANN bylaws and GNSO Operating Procedures.

Javier Rúa-Jovet (ALAC):Ok so GAC unanimity does not mean that all GAC members must vote affirmatively. GAC Consensus means nobody objects. So every GAC Member has a potential veto to any advice by affirmatively voting NO/objecting. Interesting

Aslam G Mohamed:US finally conceded and pulled back from supporting.amazon application!?! inexplicably!

Javier Rúa-Jovet (ALAC):Thanks @Alan for the additional .Amazon status.

Ashley Heineman (US GAC):For example, the US abstained with a statement that/that abstention did not require us to maintain that abstention in the future.

Alan Greenberg:Silence allows GAC advice to go forward - without active support, but without objection as well.

Javier Rúa-Jovet (ALAC):thx

Javier Rúa-Jovet (ALAC):Good seminar. Thx!

Aslam G Mohamed:Hi Ashley. US might have to take a definitive stand.

Olga Cavalli - GAC - CO lead WT5:Thanks all!!

Javier Rúa-Jovet (ALAC):Thanx to all. Bye!

Marita Moll:Great seminar. Thanks so much.

Svitlana Tkachenko:Thank you for the seminar, very useful

Javier Rúa-Jovet (ALAC):Ciao

Bruna Santos:Thank you very much for this call!

Cheryl Langdon-Orr (CLO):thanks everyone

Alan Greenberg:Important to note that the Amazon IRP did not determine if the TLD should be delegated but rather whether we followed our Bylaws in the process.

Ann-Cathrin Marcussen, ccNSO:Thank you, Annebeth

Nigel Hickson:thank you
Cheryl Langdon-Orr (CLO):bye
Harold Arcos:Thanks a lot
