REQUEST DESCRIPTION

1. Activity: Please describe your proposed activity in detail

The diversity includes a broad range of data. To enhance diversity we need to be able to collect those data. It will be useful to gather the data both from an historical point of view and from a current and future situation. All the ICANN leadership bodies can be concerned but the first one to be discuss (as the data are already collected and in the last mile to be analyzed) can/must be the Board of ICANN.

In future steps (specifically going to a workshop during 2018 IGF) we will need to take into account other leadership bodies of other Internet Governance structure (Internet Society, IETF, IGF MAG...).

Workshop's themes:

- what is Diversity (based on the WS2 ccwg-ICANN accountability document)?
- what are the data that need to be collected?
- evolution of diversity in various ICANN leadership groups
- how to enhance diversity in ICANN leadership groups?

2. Type of Activity: e.g. Outreach - Education/training - Travel support - Research/Study - Meetings - Other

Research/Study and Meeting EURALO/At Large/other SO/AC joint workshop at one ICANN6x (FY2019)

3. Proposed Timeline/Schedule: e.g. one time activity, recurring activity

A first workshop to launch the track but it is expected to be a recurring activity at regional and global meetings and/or activities such as IGF 2018 (yet to be decided).
