REQUEST INFORMATION

Title of Proposed Activity	
NCSG IGF Request	
Community Requestor Name	Chair
NCSG	Farzaneh Badii
ICANN Staff Community Liaison	
Maryam Bakoshi	

REQUEST DESCRIPTION

1. Activity: Please describe your proposed activity in detail
<p>NCSG has an extensive network of civil society members who attend the IGF but it also wants to forge alliance with new groups that are like minded. IGF provides the opportunity to carry out these tasks. We also plan to submit a workshop proposal which might be about privacy, human rights, cybersecurity or general noncommercial stakeholder groups power.</p> <p>If we decide to go with cybersecurity, our draft proposal is: A workshop in Internet Governance Forum on cybersecurity and DNS. This workshop was drafted last year but we didn't have the opportunity to present. Further work would be done on the proposal before it is submitted to MAG for approval.</p> <p>The workshop will look at cybersecurity specifically in relation to DNS, including management interfaces, owner authentication processes, RDS/whois and related problems like domain hijacking, privacy endangerment, spam etc., not from purely technical perspective but also in how they should affect ICANN policy. The idea is that even non-technical people developing policy should acquire an understanding on how and what kind of security issues they should consider when making policy decisions.</p>
