

Conflict of Interest Considerations – Xavier Calvez and Samantha Eisner

1. Do you, or an entity that you represent, hope to assist ICANN/serve as a grant-making organization in the future in relation to the auction proceeds?

Xavier Calvez is ICANN's CFO, and Samantha Eisner is one of ICANN's Deputy General Counsels. As an officer of ICANN, Xavier has a fiduciary duty as it relates to the maintenance and disposition of the auction proceeds, and each are expected to be involved in ICANN's future work as it relates to the auction proceeds within ICANN.

2. Are you, or an entity that you represent, interested in applying for a portion of the auction proceeds.

ICANN holds the auction proceeds.

3. Are you, or an entity that you represent, an advisor to other potential applicants interested in applying for some of the auction proceeds? If no, do you anticipate that you/the entity you represent, may serve in this advisory capacity in the future?

ICANN is not and will not serve as an advisor to any applicants.

4. Are you, or an entity that you represent, interested in serving as a consultant to ICANN in designing/implementing the selected structures?

Both Xavier and Samantha are expected to be involved in the design and implementation of selected structures in their roles as ICANN employees.

5. Are you, or an entity that you represent, a part of ICANN's community, and if so, will you be representing that position as part of your conversation with the auction proceeds group?

Both Xavier and Samantha are both part of the ICANN Org team representing ICANN in the CCWG-AP.
