

Webex Chat:

from Joke Braeken to All Participants: Welcome everyone

from Erika Mann to All Participants: I found it!

from Terri Agnew to All Participants: Welcome to the CCWG New gTLD Auction Proceeds call on Thursday, the 29th of March 2018

from Ching Chiao to All Participants: Hi Erika, everyone

from Ching Chiao to All Participants: There are two "Auction agenda" tabs

from Nathalie Peregrine to All Participants: @Ching, I see only one.

from Vanda Scartezini to All Participants: hi everyone. I have used webex before in my business so it works normally well.

from Marilyn Cade to All Participants: i see the names, but I don't see the microphone for myself to mute.

from Maarten Botterman to All Participants: No problem here on my iPhone

from Vanda Scartezini to All Participants: i am hearing all

from Erika Mann to All Participants: Am I now muted?

from Marilyn Cade to All Participants: I agree with Erika. but only a mute for myself. but I think that we have still others who are still having challenges.

from Vanda Scartezini to All Participants: ok I am mute

from Ching Chiao to All Participants: I m on mute too

from Joke Braeken to All Participants: hello all. This is the link to the wiki page:

<https://community.icann.org/display/CWGONGAP/2018-03-29+CCWG+new+gTLD+Auction+Proceeds+Meeting>

from Maureen Hilyard to All Participants: Hi everyone, I connected to Webex fine and have a great audio bridge connection as well

from Terri Agnew to All Participants: thank you, Maureen!

from Stephanie Perrin to All Participants: Apologies for being late.

from Vanda Scartezini to All Participants: San Juan

from Wale Bakare to All Participants: Hi everyone

from Terri Agnew to All Participants: thank you, Julf. Yes, the browser version looks a bit different and has buttons at the bottom of the window.

from Wale Bakare to All Participants: Good morning/afternoon/evening

from Vanda Scartezini to All Participants: looks like another meeting

from Ching Chiao to All Participants: sounds like an ISOC.org video

from Erika Mann to All Participants: Good morning Wale, Hi Vanda!

from Wale Bakare to All Participants: Thank you Erika

from Daniel Dardailler to all participants: side note: the sound over ip is much better with webex than with adobe connect (I knew that since I've been using webex for years at w3c)

from judith hellerstein to all participants: Yes but Webex is not accessible so am surprised W3C uses it instead of zoom

from Daniel Dardailler to all participants: Judith: I don't know, I can check, I can tell you that I'm not using the same UI usually with mit.webex.com

from Daniel Dardailler to all participants: my questions: how many grants can a Project Officer manage ? and How much does this number depend on the size of the individual grants ?

from judith hellerstein to all participants: Hi all have to drop off the call as my plane is taking off

from Daniel Dardailler to all participants: yes, Erika, or I can ask it myself, as you prefer, not sure where is the queue mgnt button

from Daniel Dardailler to all participants: ok, I found the raise hand button

from Daniel Dardailler to all participants: I can't unraise my hand..

from Daniel Dardailler to all participants: ah yes, you need to click on the raise button again, and there are 2 of them

from Xavier Calvez to all participants: @Erika @Ching: I am available to answer any question.

from Xavier Calvez to all participants: @Ching: other than purely operational and logistical, I don't see any issues for ICANN to oversee/monitor grants anywhere in the world.

from Daniel Dardailler to all participants: bye

from Xavier Calvez to all participants: Thank you.

from Maarten Botterman to all participants: Thanks
