

Anne Marie Joly le 14/05/2018

I am the representative of an ALS named [E-Senior](#).

I am ready to serve Euralo by participating in the NomCom on behalf of European Internet users.

I have participated in ICANN and Euralo meetings or conference calls in the last ten years.

I am involved in the EURALO ALS Engagement Working Group.

During my professional career in the human resources Department of a large international group, I had the opportunity to recruit executives. Because the intercultural aspect of applicants was so important, I can pretty well recognize the skills needed to take diversity into account when recruiting people.

That is to say, the Anglo Saxon system is challenging for some other cultures, and the Nominating committee covers the whole world.

My experience and my skills would be very useful to the NomCom to continue improving the process of selection of candidates in the different Iann Bodies.
