I believe my experience is my best capital. I have demonstrated skills working for many years on internet ecosystem, at ALAC & GNSO.
I have time to dedicate to this job and I know what's about work as a volunteer.
My background are explained at SOI and everyone can see there what are my candidate conditions or capacities.
Additionaly I was one of the Founder LACRALO 2006 MOU signers with ICANN, I was recognized as Internet pioneer in the region by Fadi Chehade in 2014.

I think that is enough to be considered a suitable candidate.
