15:15 – 16:45	Cross-Community Session: Geographic Names at the Top-Level (2 of 2) (Salon 1-3)

Review of all Rights Protection Mechanisms in all gTLDs PDP Working Group (2 of 3 and 3 of 3)

Overview

The GNSO's Review of All Rights Protection Mechanisms (RPMs) Policy Development Process (PDP) Working Group (WG) was chartered in March 2016 to conduct a two-phased PDP. In Phase One, the WG is reviewing all the RPMs that were developed for the 2012 New gTLD Program. The WG is conducting extensive data collection on the Sunrise and Claims RPMs. In addition, the WG is identifying additional data needs and inquiries concerning Uniform Rapid Suspension (URS).

What to Expect at ICANN62

The RPM PDP WG is holding 2 Face-to-Face sessions today, during which the WG will engage in a discussion on procedural issues with the Uniform Rapid Suspension (URS) and Phase One, and a Sub Team will hold a working session to review responses to questions for URS providers.

How to Prepare

Review:
- WG Charter https://community.icann.org/download/attachments/58729944/Charter%20for%20RPM%20PDP_final.pdf?version=1&modificationDate=1458068964000&api=v2

GNSO Council Wrap Up Meeting

Overview

The GNSO Council and wider GNSO community meet at every ICANN meeting to discuss, collaborate, and make progress on issues important to the GNSO community.

What to Expect at ICANN62

- GNSO Review of the GAC Communique - call for volunteers
- Council comment on short term and long term options to adjust reviews
- Discuss the input from the meetings during the week and plan ahead.

How to Prepare

New gTLD Subsequent Procedures PDP WG

Overview

Community efforts, such as a PDP and various reviews, are underway to take into consideration the 2012 New gTLD round and seek ways to improve, refine, or develop new policy recommendations for new gTLDs, acknowledging that there is existing new gTLD policy from the GNSO's 2007 Final Report on the Introduction of New gTLDs.

What to Expect at ICANN62

- The New gTLD Subsequent Procedures PDP WG is holding 1 Face-to-Face session today, during which it will recap previous sessions and the week overall, discuss input to red-lined Initial Report, wrap up for the week and discuss next steps for the WG.

How to Prepare

Review:
- WG Charter: https://gnso.icann.org/en/issues/new-gtlds/subsequent-procedures-charter-21jan16-en.pdf
- WG Wiki: https://community.icann.org/x/RgV1Aw

CC - Geographic Names at the Top-Level

Overview

There are divergent views within the community on the topic of geographic names at the top-level. In addition, there are parallel efforts underway that are separately looking how geographic names should be handled in the future, each with a different focus and scope of work. Work Track 5 has been established as a sub-team for the New gTLD Subsequent Procedures PDP WG, to focus on singular topic.

What to Expect at ICANN62

The purpose of this session is to facilitate dialogue on the topic of geographic names at the top-level. The session will be led by the co-leads of WT5. The session will be run as a working session to validate preliminary outcomes, but also to make progress and/or seek resolution for open issues

How to Prepare

Review:
- WT5 Wiki: https://community.icann.org/x/YASbAw (see working document)
- Background Paper: https://community.icann.org/download/attachments/64077479/Geo%20Names%20Webinar%20Background%20Paper.pdf?version=1&modificationDate=1492716976000&api=v2

In Summary

All sessions are open

Comments & input are welcomed from all

Review the GNSO Policy Briefings to get a head-start (https://go.icann.org/gnsobriefing)

Do not hesitate to ask questions

Do not panic if you have no idea what people are talking about
