# Capacitation

## Capacitation

- directly contribute to the training of thousands of professionals and students,
- contribute to the dissemination of the best operational practices and, with them, improve the operation of networks and the Internet,
- contribute to the dissemination of relevant technologies, such as IPv6, RPKI, NTS, etc,
- contribute to creating a culture of continuous training in the technical community,
- contribute to improving the institution's relationship with the technical community.

# Thanks
