13:00:30 From Joke Braeken : Hello everyone!

Welcome to today's ccNSO community webinar for newcomers, held on Thursday, 3 October 2019 at 11 UTC.

A reminder to please mute your microphones when not speaking.

13:00:34 From Katarina : Hello all :)
13:28:06 From Joke Braeken : Katrina just spoke about the IGLC (Internet Governance Liaison Committee). The IGLC recently launched a survey. Click here to take the survey now: <https://www.surveymonkey.de/r/IGLCtopics>

13:28:11 From Joke Braeken : The IGLC aims to create a repository of events, programmes or initiatives in the Internet Governance area, that address ccTLD-relevant topics. Therefore, the (IGLC) seeks your input, via a survey.

This initiative has two main objectives:

share information among ccNSO members, not only on upcoming meetings or events, but also on previous talks, in order to help fostering co-operation between ccTLDs who would like to share their views on one of the 8 relevant topics included in the background section below.

Once the survey results are available, it allows us to advertise to the broader ICANN community and other key players the important role of ccTLDs in Internet governance talks.

13:30:00 From Joke Braeken : if you want to join one of the working groups, do not hesitate to contact the ccNSO secretariat, we are happy to assist! My email is joke.braeken@icann.org

13:30:26 From Joke Braeken : Note that members need to be appointed by the ccNSO Council, before officially joining the working group or committee.

13:30:47 From Everton T. Rodrigues : OK, I'll take it by the end of the webinar. Thank you!

13:30:59 From Joke Braeken : thanks a lot Everton.

13:32:22 From Joke Braeken to Everton T. Rodrigues (Privately) : Everton, I just forwarded you an email regarding the IGLC survey

13:33:15 From Joke Braeken : you are first when counting from the back Katrina :)

13:35:40 From Everton T. Rodrigues to Joke Braeken (Privately) : Awesome, I'll do that. As I told you before, the Brazilian IGF is happening right now. Perhaps most of our events are already listed by someone else from our Brazilian team, but I'll be glad to help :)

13:37:55 From Joke Braeken to Everton T. Rodrigues (Privately) : I checked the survey results last week, but I don't think I saw reference to the .br event, so it is very timely we discuss this!

13:41:24 From Everton T. Rodrigues to Joke Braeken (Privately) :
OK, count on me. I don't see a deadline on your message.
13:42:01 From Joke Braeken to Everton T. Rodrigues (Privately) :
True, there is no deadline. Chair Pierre preferred to keep it open,
and to present the preliminary results in Montreal.
13:42:29 From Joke Braeken to Everton T. Rodrigues (Privately) : We
will take it from there and see when and if to close the survey
afterwards
13:42:53 From Everton T. Rodrigues to Joke Braeken (Privately) :
Good, then I'll be able to contribute with a more robust list
13:44:26 From Joke Braeken : We will have remote participation
options for the IGLC and the PDP retirement WG meetings on Saturday
13:46:23 From Joke Braeken : At ICANN66, the Country Code Names
Supporting Organization (ccNSO) Top-Level Domain Operations (TLD-
OPS) Standing Committee [r20.rs6.net] will hold a workshop to test
its draft disaster recovery and business continuity playbook, which
serves as a basic business continuity implementation guide for small
country code top-level domain (ccTLD) operators. The workshop will
be held on Sunday, 3 November 2019, and is open to TLD-OPS community
members. Participants are expected to actively contribute, and
attendance is limited to three persons per ccTLD. Pre-registration
is required. Register here: [https://docs.google.com/forms/d/e/
