- 08:22:12 From Jonathan Zuck : agree

08:27:59 From Carlton Samuels : It seems to me what we would wish to do is establish relatedness of the issues at the global level then say what specific details affect registrants and then end users

08:31:02 From Carlton Samuels : Prescription is not the way and seeing nothing can be done until the next budget year we ensure the timer begins then

08:31:56 From Kaili Kan : I just wonder if the board is specific on CCT or not. For example, have they seen our report?

08:33:07 From Carlton Samuels : The issue with contracts as vehicle was that data collection that was mandated in contracts are now subject to GDPR constraints and it might not be the best place to look but more collaborative endeavours.
