Dear All,

As you will have seen, the ICANN Board met on 30 May to consider the FY19 Operating Plan and Budget and FY19 Five-Year Operating Plan Update (see:

We, as a Decisional Participant, have received the respective notification (which was already forwarded to you). This notification initiated the Rejection Action Petition Period with respect to the FY19 ICANN Budget and Operating Plan.

Stephen has already informed the ccTLD community. As you know, we have recently adopted the ccNSO Guideline pertaining to the Rejection Action Process. Accordingly, the ccNSO Council MAY need to decide, no later than on Day 20 of the rejection Action Petition Period, on petitions we receive, if any, and no later than on day 27 into the process, on any request for support.

For this reason, I have asked the Secretariat to tentatively schedule a Council call for Thursday 21 June 2018, at noon UTC, and meeting on Thursday 28 June at 08.00am local time.

Purpose of the meetings is to decide on a Rejection Action Petition, if any, on 21 June 2018 and whether to support a Rejection Action from another Decisional Participant on 28 June 2018.

Kind regards,

][atrina
