

Adobe Connect Chat Transcript CCT-RT Plenary #75 – 29 August 2018

Brenda Brewer: (8/29/2018 07:37) Good day all! Welcome to CCT-RT Plenary #75 on 29 August 2018 @ 13:00 UTC.

Brenda Brewer: (07:37) Please note this meeting will be recorded. When not speaking, mute your phones by pressing *6. Press *6 to unmute. Thank you.

Gao: (08:07) Good day Brenda, Good day everyone

Brenda Brewer: (08:07) Hi Gao!

Jordyn A. Buchanan: (08:09) We're close!

Jordyn A. Buchanan: (08:09) Down to one sentence.

Jonathan Zuck: (08:12) in any case, this change is fine ;) HOpefully Stan won't mind

Calvin Browne: (08:12) apologies for my lateness

Jordyn A. Buchanan: (08:13) The first sentence doesn't parse anymore.

Jordyn A. Buchanan: (08:13) But other than that it's fine.

Jordyn A. Buchanan: (08:13) (what Laureen is saying)

Jamie Hedlund: (08:13) IP owners

Waudu: (08:15) citations for the "early citations"

Waudu: (08:15) early indications

Waudu: (08:16) ok

Brian Aitchison: (08:19) zoom in

Calvin Browne: (08:19) zoom a bit pls

Carlton SAMUELS: (08:20) Howdy all. Apologies for the late join. Traffic between spots

Jonathan Zuck: (08:20) So THAT's why we suddenly got you to read this! ;)

Jamie Hedlund: (08:21) Gave up hope for illustrations and emojis in the report

Waudu: (08:21) I dont have audio. Am I alone?

Calvin Browne: (08:21) Carlton - glad i'm not the only one who has to fight traffic..

Brenda Brewer: (08:21) Waudu, may I dial out to you?

Waudu: (08:21) Now its back

Gao: (08:22) Is it just me or do we keep getting cut?

Calvin Browne: (08:22) that should be "were meant to stand"

Jean-Baptiste Deroulez: (08:23) where Calvin?

Jean-Baptiste Deroulez: (08:23) oh i see

Calvin Browne: (08:23) Gao - ok with sound, but it takes a while for my comments to be delivered when typing

Carlton SAMUELS: (08:24) Did we go silewnt? I joined the audio bridge and no sound

Carlton SAMUELS: (08:24) OK. Now I hear Jean-Baptiste

Fabro Steibe: (08:26) Hi all, sorry for the late arrival. Horrible problems updating the adobe connect

Jordyn A. Buchanan: (08:26) Does David have a cockney accent?

Calvin Browne: (08:26) grin

Carlton SAMUELS: (08:27) Can we zoom the screen?

Gao: (08:27) I cannot hear anything.

Carlton SAMUELS: (08:27) My eyes ain't what they used to be. Was told last week

Brenda Brewer: (08:28) Gao, would you like a dialout?

Carlton SAMUELS: (08:28) Thanks sah! Every little helps! :-)

Jordyn A. Buchanan: (08:28) The "In particular, only 17% sentence" doesn't parse.

Jean-Baptiste Deroulez: (08:28) Hi Carlton Im sharing the screen due to technical issues with the pdf

Carlton SAMUELS: (08:30) I agree Jordyn. That sentence doesn't look right to me

Brian Aitchison: (08:30) "for domain registration by brand owners who responded to the survey appear to be defensive"

Jordyn A. Buchanan: (08:30) Is it really true that one of the stated purposes of the new gTLD program was to create greater choice for brand owners?

Carlton SAMUELS: (08:31) @Jordyn: Not just for brand owners but the market, whihc I presume incldes brand owners

Jonathan Zuck: (08:31) purpose was to create choice for everyone but for brand owners it appears to have just creatd headache?

Calvin Browne: (08:31) ouch

Jean-Baptiste Deroulez: (08:31) @Kaili, I'm afraid we can't hear you properly

Calvin Browne: (08:32) cant hear that

Lauren Kapin: (08:32) c/n hear kaili well.

Carlton SAMUELS: (08:32) Could not hear Kaili. Seems garbled

Laureen Kapin: (08:32) Still c/n hear kail well

Jordyn A. Buchanan: (08:32) Yeah, I think it should probably read "While one of the stated purposes of the new gTLD Program was to create greater choice, the primary consideration for domain registration by brand owners appears to be defensive

Calvin Browne: (08:32) Kaili - can't get that

Jordyn A. Buchanan: (08:33) Yeah, I can hear that Kali is talking but can't understand any of the words.

Kaili Kan: (08:35) In this page, "..... only 17% of respondents had registered names in the new gTLDs for the first time in new gTLDs versus ...", there are two "in new gTLDs". Do not quite understand. Are they redundant or what?

Carlton SAMUELS: (08:37) I think what they meant to say only 17% ever had a registration and in the new gTLD

Kaili Kan: (08:37) Thank you!

Waudou: (08:37) I have poor connection. So Im not getting consistent audio. Just following using the screen and chat

Jamie Hedlund: (08:38) Ok

Waudou: (08:38) Would appreciate to be called on +254722395900

Laureen Kapin: (08:38) +1 JB

Carlton SAMUELS: (08:38) Is the 2nd part suggesting all others who registered had already registered the string in the legacy gTLDs? That is 8% of them?

Carlton SAMUELS: (08:39) I need to look at the survey results again

Brenda Brewer: (08:40) Arranging dial out, Waudou.

Jean-Baptiste Deroulez: (08:40) thanks

Jamie Hedlund: (08:40) For the record, my only change was to add "may" - the effectiveness language wasn't from me

Waudou: (08:41) Thanks Im now on the telephone

Jamie Hedlund: (08:42) Ah. Thx

Jonathan Zuck: (08:42) good to know

Carlton SAMUELS: (08:42) What I think that the 17% reference, right after "versus" was expecting a figure.

Jamie Hedlund: (08:43) At least needs to be qualified - 75% for respondents at most

Jamie Hedlund: (08:45) The survey should not be relied to demonstrate that 75% of disputes involves privacy proxy. That should come from an analysis of the dispute docket

Jamie Hedlund: (08:46) relied on

Jordyn A. Buchanan: (08:46) There's lots of other patterns that can be discerned:

Jordyn A. Buchanan: (08:46) do they resolve to the same IP

Jordyn A. Buchanan: (08:47) are they all in the same registrant

Jordyn A. Buchanan: (08:47) were they registered at the same time

Jordyn A. Buchanan: (08:47) Er, same registrar

Laureen Kapin: (08:47) the issue here is a lack of clarity in the way this idea is expressed.

Jordyn A. Buchanan: (08:47) Yeah.

Waudou: (08:49) "these systems" refers to which systems?

Waudou: (08:49) further research in THESE SYSTEMS

Jamie Hedlund: (08:53) It is not a fact! It is based on survey, not on dispute records

Waudou: (08:58) "that at least for respondents" is unnecessary

Jamie Hedlund: (09:06) Absolutely - we (compliance) made these changes in part in response to and with knowledge of the recommendations. GAC and others also asked for more transparency so the changes are responsive to them as well.

Jamie Hedlund: (09:07) works for me

Jamie Hedlund: (09:08) mute please!

Jean-Baptiste Deroulez: (09:08) thank you Laureen

Carlton SAMUELS: (09:08) We should acknowledge: 1) Compliance reporting is in change mode 2) Some changes implemented have been requested by community

Jamie Hedlund: (09:11) Should "technical abuse" be changed to "DNS security abuse" to be consistent with rest of report?

Jamie Hedlund: (09:12) Ok, Drew came up with different term. We just need to be consistent I think

Jordyn A. Buchanan: (09:15) +1 JZ

Jordyn A. Buchanan: (09:18) Unfortunately, I've got to drop off.

Jamie Hedlund: (09:26) I am fine either way

Jamie Hedlund: (09:27) It's fine, Laureen. Relegate me to a footnote

Jonathan Zuck: (09:27) it's already how history will remember him...

Jamie Hedlund: (09:28) It belongs with Rec 19

Jamie Hedlund: (09:28) great

Jamie Hedlund: (09:31) Thank you. Maguy and her team deserve the credit

Jonathan Zuck: (09:32) Oh we know

Jamie Hedlund: (09:33) Thanks, JZ. Love you too, man.

Jamie Hedlund: (09:34) Correct

Jamie Hedlund: (09:35) Ok

Carlton SAMUELS: (09:38) Call dropped and I'm dailed in directly. Global Meetings platform is a pain

Calvin Browne: (09:41) ciao

Carlton SAMUELS: (09:41) Thank you all. Bye all

Laureen Kapin: (09:41) thx everyone -almost there!!!

Kaili Kan: (09:41) Thanks!
