- July 5, 2018 Seoul
- Attendee : 198
- Workshop Sessions : 9
- Tutorial Sessions: 4
- Three Tracks: 1) Internet Economy, 2) Human Rights, 3) Governance

# 2018 KrIFG Workshop Sessions

- Internet Economy Track
  - Fintech and Regtech for innovative financial services
  - The future of User-centric News services
  - Reverse discrimination of network billing
  - Policy

# 2018 KrIFG Workshop Sessions

- Human Rights Track

- Internet censorship: for whom?
- Between hate speech and free expression
- Controversy over Internet real-name verification

# 2018 KrIFG Workshop Sessions

- Governance Track :
  - Top-level domain (TLD) of Korean and Chinese characters (한자韓字 and Hanja漢字)
  - Data governance: Social Login & User privacy
  - The Rise of A.I: What is The future We expect?

# KrIFG Tutorial Sessions

- A.I and open data (why they shall meet)
- Blockchain and Commons Ecosystem
- How Blockchain transform public sector
- 2018 Trend & Issues of Start-ups

# Achievements & Future Task

- Provide discursive fora that anyone come question and talk about Internet
- Open-ended dialogue on Internet-related public policy issues
- Nobody enforce a particular standpoint
- Accommodate wide-ranging newly emerging issues
- Multistakeholders freely exchange their opinions
- Directly/ indirectly shape public opinions that may reflect to policy makers
- Need to get more participation from government and tech community side
