

Hi Kurt & All-

I work for Facebook, where I lead our DNS strategy and management activities and fight IP infringement and fraud. Our main interest in RDS and ICANN is to keep our platform and our products safe for our 2.5 billion users.

I have been in the industry for over 15 years, having previously worked at ICANN as the Vice President of Strategic Initiatives, and, before joining ICANN, served as the General Counsel of MarkMonitor. While at ICANN, I worked closely with the EWG on Registration Directory Services, and gained deep knowledge of the WHOIS issues, consensus policy development, and the ICANN contracts.

I am representing the Business Constituency on this group, and am looking forward to working with you all.

All the best,

Margie Milam
