

Beth Bacon

I have over 12 years of experience with ICANN policy and over 8 years of active participation in ICANN SO/ACs, previously in the GAC and currently with the Registries Stakeholder Group. I have been working on privacy issues for the past 5 years, first in the Department of Commerce and now at PIR as Director of Policy and Privacy. Additionally, I have several years of practical experience operationalizing privacy (especially GDPR) requirements into new and existing agreements, policies, and procedures to serve the unique business needs of Registries.

Beth Bacon, Director of Policy and Privacy
Public Interest Registry
