

I am Farzaneh Badii (or Badiei, for the reason why it is spelled differently in different places, refer to [https://icannwiki.org/Farzaneh\\_Badii](https://icannwiki.org/Farzaneh_Badii))

I am the chair of Noncommercial Stakeholders Group (2018), got involved with ICANN as a fellow back in 2013, and was active at CCWG-Accountability. was the chair of Noncommercial Users Constituency in 2017.

I had become active in 2018 at RDS and was a member of a sub-team on purpose of WHOIS. My involvement with WHOIS and its policy issues increased as NCSG corresponded with ICANN on this matter since December 2017.

I have researched and blogged about issues related to WHOIS in 2018.

I am a member of this EPDP as an NCSG representative.

I work at Internet Governance Project, based in Georgia Tech.
