Hi everyone, I am Julf (formally "Johan", but prefer Julf) Helsingius, and I have been involved with developing and running (and developing policies for) networks connected to the Internet since 1985 or so. I feel the right to privacy is a crucial human right, and I did run one of the first popular pseudonym servers, anon.penet.fi, in the 90's.
I am currently the chairman of the board at BaseN, an IoT operator.
I have served on the GNSO council, and I am currently serving as the GNSO liaison to the GAC.

    Julf
