ADOBE CONNECT – CHAT TRANSCRIPT FROM PLANNING TEAM - AUGUST 1, 2018

Becky Nash: (8/1/2018 07:57) Welcome to the FY20 Planning Webinar

Ricardo Holmquist - ALAC: (07:58) good day everyone

Becky Nash: (07:58) Hello - we will get started in a few mins.

Alfredo Calderon: (07:58) Saludos Ricardo.

Alfredo Calderon: (07:58) Hello to all!

Ricardo Holmquist - ALAC: (07:58) Hola Alfredo

Alfredo Calderon: (08:03) Hi to all Planning Team.

Sebastien (ALAC): (08:03) Hello all

Giovanni Seppia: (08:03) Hello all

Sebastien (ALAC): (08:04) Can we have acces to the voice via AC (and not only to phone)?

Alfredo Calderon: (08:05) Hearing noise in background.

Sebastien (ALAC): (08:05) Sound is not good

Giovanni Seppia: (08:05) Cannot hear much

Jimson Olufuye: (08:06) Breaking audio...

Alex M: (08:07) Has the sound gotten better? Please mute if you are not speaking.

Ricardo Holmquist - ALAC: (08:07) sounds got better. It seems it was a mic problem

Maureen Hilyard: (08:10) Apologies for lateness

Becky Nash: (08:15) Sebastian: We enabled ia AC (and not only to phone).

Alfredo Calderon: (08:16) @Becky, thank you for the audio fix.

Wolf-Ulrich Knoben: (08:17) I hope you enjoy the exchange with the community and don't see it just as abylaws obligation...

Becky Nash: (08:19) Yes ICANN.org values the exchange with the ICANN Community and we welcome feedback on the timeline and the documents

Wolf-Ulrich Knoben: (08:20) I'm sure you do. Thanks for your efforts!

Xavier Calvez: (08:22) @Wolf Ulrich: of course! The community/staff interaction has always been the foundation of engagement and how "works get done at ICANN", but we wanted to remind everyone that it is also now a formal requirement defined in our bylaws...

Giovanni Seppia: (08:22) @ICANN staff, thanks for the interesting overview. Will you make the slide set available?

Giovanni Seppia: (08:25) How much static will the Strategic Plan objectives be? During the current SP round of comments, that was one of the key community points of concern

Giovanni Seppia: (08:25) Thanks for making the slides available

Giovanni Seppia: (08:26) Community asked ICANN to make objectives flexible enough to respond to the development of the technical industry

Giovanni Seppia: (08:26) @ Xavier / Nathalie, thanks, thiat was indeed my question

Giovanni Seppia: (08:27) Thanks for looking into that flexibility

Giovanni Seppia: (08:27) @ Xavier, thanks again

Wolf-Ulrich Knoben: (08:28) by which step of FY20 planning do you expect input from the constituencies?

Wolf-Ulrich Knoben: (08:28) I mean the constituency budget requirements

Sebastien (ALAC): (08:32) Thanks Xavier

Wolf-Ulrich Knoben: (08:32) yes

Wolf-Ulrich Knoben: (08:34) okay, thanks

Giovanni Seppia: (08:34) I believe last year it went fine

Wolf-Ulrich Knoben: (08:34) not yet, but I will refer back after internal consultation

Giovanni Seppia: (08:35) We would just like the documents to follow the same format and structure to facilitate the feedback

Giovanni Seppia: (08:36) Especilly for non-English mother tongue

Giovanni Seppia: (08:37) @ Becky, many thanks

Alfredo Calderon: (08:41) My guess is that it will. But some of the ongoing public consultations e.g. Reviews) will determine and impact Budget.

Giovanni Seppia: (08:42) @all ICANN staff, as I have to leave in few minutes, thanks again for all your work on this not-so-easy process which is of paramount importance for the all community

Alfredo Calderon: (08:42) Thank you all, Planning Team as well!

Wolf-Ulrich Knoben: (08:42) thanks and goodbye

Xavier Calvez: (08:43) Thank you and have a good day.

Juan Manuel Rojas: (08:43) Thanks
