TLD-OPS Disaster Recovery workshop

Sunday, 21 October
13:30-18:30*

The workshop is open to all ccTLDs. **RSVP** ahead of time is required.

The goal of the collaborative workshop is to have an in-depth discussion, focused on the various aspects of Disaster Recovery that are specific to ccTLDs, including elements relating to detection, activation, analysis, action plans and communications plans. The expected outcome is to collect the disaster recovery experience, to share best practices, and to gather feedback and examples.

Tech Day

Monday, 22 October
09:30-16:45*

Tech Day has been a part of ICANN Public Meetings for several years and provides a forum for both experienced people and newcomers to meet and to present and discuss technical registry topics, security, and DNS-related work.

At ICANN63, Tech Day is particularly focusing on disaster recovery and mitigation. Other topics of interest include registry security, DNS & Anycast, big data and associated data analysis, IETF DNS protocol updates, recent DDOS attacks and mitigations.

ccNSO Members Meeting

Tuesday, 23 October &
Wednesday, 24 October

Tuesday and Wednesday are dedicated to the ccNSO Members Meeting, when the ccTLD community and other interested parties will discuss and receive updates on topics relevant to ccTLD managers. The ccNSO Members Meeting is open to all with an interest in ccTLD-related topics.
