- ⦿ Recommendations for policies, guidelines, best practices or other proposals to address the issue
- ⦿ Statement of level of consensus for the recommendations presented in the Initial Report
- ⦿ Information regarding the members of the PDP Team, such as the attendance records, Statements of Interest, etc.
- ⦿ A statement on the WG discussion concerning impact of the proposed recommendations, which could consider areas such as economic, competition, operations, privacy and other rights, scalability and feasibility

Types of outcomes permissible from a PDP

Teams may make recommendations to the GNSO Council regarding

i. Consensus policies	vii. Research or Surveys to be Conducted
ii. Other policies	viii. Advice to ICANN or to the Board
iii. Best Practices	ix. Advice to other Supporting Organizations or Advisory Committee
iv. Implementation Guidelines	x. Budget issues
v. Agreement terms and conditions	xi. Requests for Proposals
vi. Technical Specifications	xii. Recommendations on future policy development activities

EPDP Team Initial Report will likely include a mix of recommendations assisted through the responses to the charter questions and review of the Temporary Specification: policy recommendations, recommendations directed at ICANN Org and/or contracted parties, consensus policies

ICANN63 Expectations

- ⦿ Share draft Initial Report & recommendations with community
 - Main interest will be in (preliminary) recommendations – ICANN63 allows EPDP Team to ask for input on outstanding issues and/or items where there may still be disagreement
 - Consider also sharing a rough outline of what other elements will be covered in the Initial Report
- ⦿ Create awareness around upcoming publication and duration of Initial Report
- ⦿ Consider input and how to factor that into Initial Report

Target date for publication of Initial Report is **5 November**
