Description

The ALAC-ccNSO Coordination Working Group has been established to participate in a joint ALAC-ccNSO project which proposes to establish a database matching At Large Structures (ALSes) and the ccTLD of their country. It is hoped that the ALAC-ccNSO partnership will look at developing a plan of action that will generate some mutual understanding of the roles of each other's organisations, on which they may build a collaborative relationship.

Contact

Staff Support Lead: [Gisella Gruber](#)
