

Feedback

This section of the CROPP Wiki space is intended to capture any input, suggestions, or other feedback concerning the [Community Regional Outreach Pilot Program \(CROPP\)-FY16](#). All program participants (including travelers, community leaders, pilot program coordinators and ICANN staff) are welcome to provide their observations, suggestions, criticisms or any other comments here. This pilot program is a learning experience. We want as many shared insights as possible to help evolve the program in a manner that supports effective community outreach and engagement efforts.

You must be a registered Confluence User with an assigned Userid/Password in order to leave comments in this space. If you do not have an account and would like to procure one, please contact a member of the ICANN Staff.

To provide your input, please use the **Comment** space at the bottom of the page, which will accept free-form text as well as attachments (upload). Staff is particularly interested in comments about the program development as well as an evaluation of its effectiveness. Please note that, once a <Save> operation is performed, comments may not be removed except by a Program Administrator.

The CROPP Administrative Staff thanks you for your feedback!
