**Pilot Program Goals**

Community leaders have outlined several key benefits that could be achieved through a programmed approach to global outreach:

1. Building local/regional awareness and recruitment of new community members;
2. More effectively engaging with current members and/or "reactivating" previously engaged ICANN community members; and
3. Communicating ICANN's mission and objectives to new audiences.

In recognition of the potential that such a regional outreach program could contribute to the ICANN community's continued growth and development, the FY16 Budget allocates resources and Staff has been directed to continue implementation and rigorous evaluation in order to assist in determining whether such resourced outreach merits support in future fiscal cycles.
