

Community Services Home Page

Welcome to the ICANN Community Services Home Space

The ICANN organization provides a variety of services to the ICANN multistakeholder community. These "Community Services" fall under six main categories of support.

Categories of Community Support

1- Travel/Meetings
Support

2- Operational/
Secretariat Support
(A&L)

3- Group/Team
Deliberations/
Facilitation Support

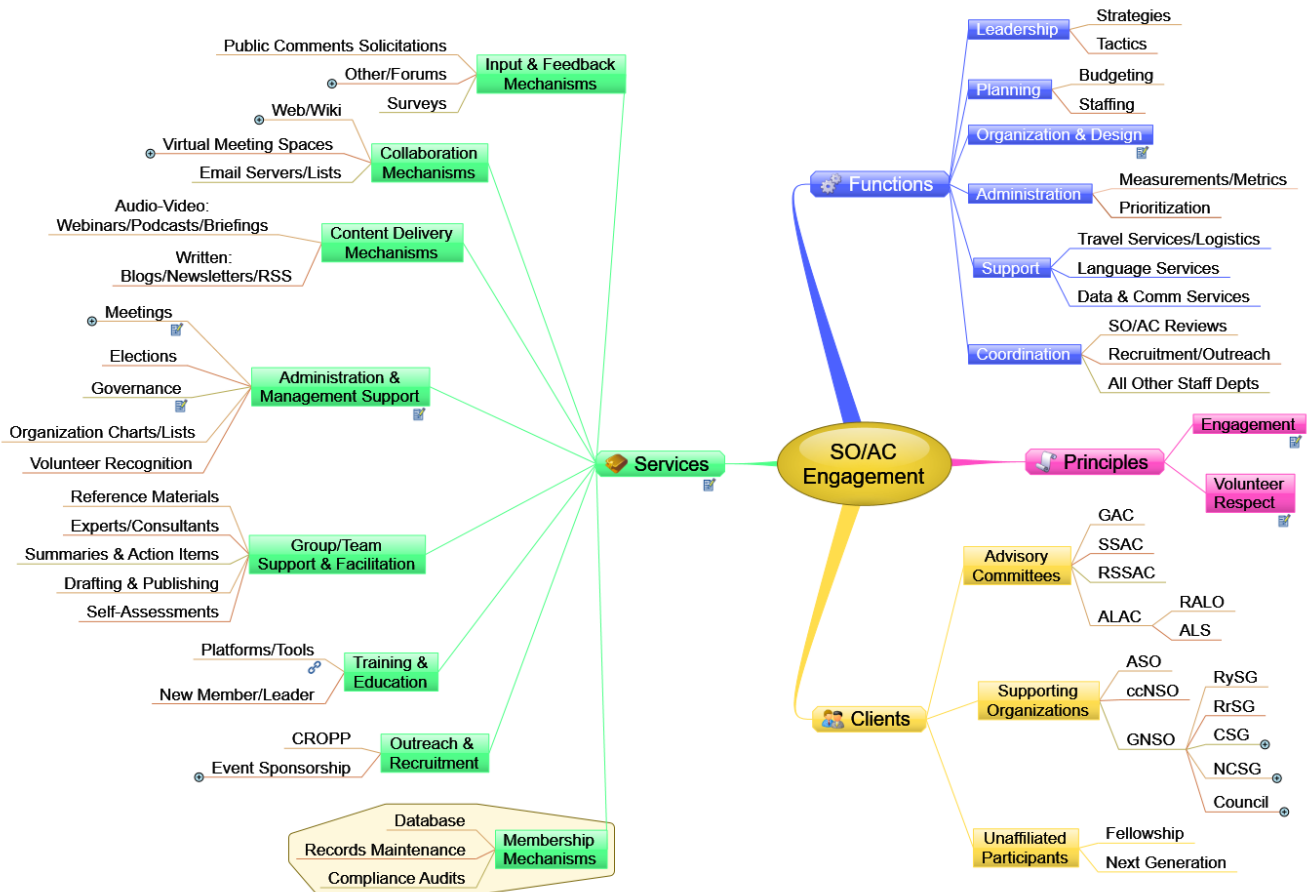

4- Outreach/
Engagement
Support

5- Systems/
Infrastructure
Support (H&S)

6- Training/
Education Support

The purpose of this community wiki space is to share and explain all the different services available to various community groups. We hope it will be a valuable resource for community leaders and staff alike.

The architecture for this area has been redesigned to match a Mind Map created by ICANN Staff for SOAC Engagement (SOAC/E). Each of the major green sections (left) is now a separate Wiki Space and represents the various service categories rendered to the ICANN Community. A new Wiki Space has also been created for each of the blue sections (upper right) of Staff functions related to SOAC/E. These new spaces will be further outlined and explained during April 2016. Your input/feedback is welcome in the Comments section at the bottom of this page.

We have plans to provide several alternative methods to make it easy to find information within this architecture starting with these two:

Navigation	On the left side of this page, the top navigation window indicates the space that is currently open along with its sub-pages. The second window shows all of the other spaces within SOAC/E.
Search	At the top right of the Wiki page, there is a search bar into which you can enter terms. As you begin typing, the system will start finding relevant pages.

Because pre-existing material has been relocated, the following table shows where the most frequently accessed pages can now be found:

Content	Space	Page Location
SOAC Work Effort Inventory	Administration & Management Support	SO/AC Work Effort Inventory
SOAC Community Services Inventory Matrix	Administration & Management Support	SOAC Community Secretariat Services Inventory/Matrix

Community Member Recognition	Administration & Management Support	Community Member Recognition
Multi-Stakeholder Ethos Program	Administration & Management Support	Multistakeholder Ethos Award
Organization Charts/Lists	Administration & Management Support	Organization Charts/Lists
CEO-SOAC Leadership Connect	Input & Feedback Mechanisms	CEO-SO/AC/SG Leadership Connect
ICANN Public Comments	Input & Feedback Mechanisms	ICANN Public Comments
Policy Update Webinars	Content Delivery Mechanisms	Policy Update Webinars

While this structure is under development, it is open to View by registered ICANN Community Wiki users. Until it is completed, only Staff personnel have permission to add content.

Feel free to browse and, if you have any comments or suggestions, please write to: <mailto:policy-staff@icann.org>
