

ATLAS III Leadership Development Team (LDT) Sub Group

Goal:

To support a strong leadership skills programme that will develop competent, visionary, and knowledgeable policy-focused leaders who will not only advocate for the rights and interests of internet end-users within At-Large but also appropriately and actively represent the interest of ICANN within their local and global outreach and engagement activities.

Objectives:

1. To develop a set of demonstrable criteria whereby we can select the 60 At-Large invitees to ATLAS III.
2. To support the preparatory programme in which prospective applicants will be expected to participate, as a lead-up to the ATLAS III programme at ICANN66.
3. To identify and encourage the development of a policy focus for each invitee so that they can provide inputs and feedback both at the community level as well as at the At-Large/ALAC level.
4. To incorporate a mentorship program whereby we may build leadership capacity within the invitees that will create a strong contingent of potential future leaders within the ALAC< RALOs and Working Groups
