

# ALAC-ccNSO Coordination Working Group

- [Contact](#)
- [Members](#)
- [Meetings \(needs updating\)](#)
- [Monthly Reports](#)

## Description

The ALAC-ccNSO Coordination Working Group was originally established to participate in a joint ALAC-ccNSO project which proposes to establish a database matching At Large Structures (ALSes) and the ccTLD of their country. The [ICANN Stakeholder Tool](#) was developed by Dev Anand Teelucksingh which has since been expanded to incorporate Fellows, GAC and a range of other combinations of criteria. The ALAC-ccNSO Coordination Group now coordinate a regular session at ICANN meetings to build a collaborative relationship as well as to generate some mutual understanding of the roles of each other's organisations and to share each others' views on policy issues.

---

## Contact

Staff Support Lead: [Gisella Gruber](#)
