

non-PDP Data & Metrics for Policy Making Working Group Home

Please note that this wiki space is the work space of the PDP WG, the authoritative space for all relevant resolutions, work documents, and tracking of progress, please consult the [Project Page](#) on [gns0.icann.org](#).

This is the home of the non-PDP Data & Metrics for Policy Making (DMPM) Working Group space. To help you on your way, we've inserted some of our favorite macros on this home page. As you start creating pages, blogging and commenting you'll see the macros below fill up with all the activity in your space.

Background

The 2010 Registration Abuse Policies Working Group (RAPWG) identified the Meta Issue: Uniformity of Reporting which it described as “need for more uniformity in the mechanisms to initiate, track, and analyze policy-violation reports.” The RAPWG recommended in its Final Report that “the GNSO and the larger ICANN community in general, create and support uniform problem-reporting and report-tracking processes.”

The GNSO Council recommended the creation of an [Issue Report](#) to further research metrics and reporting needs in hopes to improve the policy development process. The report created by ICANN Staff outlined accomplishments regarding reporting and metrics by the Contractual Compliance function and it also reviewed other reporting sources that may be of relevance. The GNSO Council subsequently adopted the recommendation to form this non-PDP Working Group tasked with exploring opportunities for developing reporting and metrics processes and/or appropriate standardized methodologies that could better inform fact-based policy development and decision making. The GNSO resolution states:

Resolved,

The GNSO Council does not initiate a Policy Development Process at this stage but will review at the completion of the ICANN Contractual Compliance three-year plan expected for 31 December 2013 whether additional action is required;

The GNSO Council further approves the creation of a drafting team to develop a charter for a non-PDP Working Group to consider additional methods for collecting necessary metrics and reporting from Contracted Parties and other external resources to aid the investigation.
