

Intersessional - February 2016

Welcome to the Non-Contracted Parties House February 2016 Intersessional Meeting Space

The 2016 Intersessional Meeting of the GNSO's Non Contracted community will be the third time that representatives from ALL the non-contracted communities of the Generic Names Supporting Organization have gathered as a group with ICANN Staff outside of a typical ICANN Public Meeting setting. In addition to the in-person attendees in Los Angeles, there will be a few others community members participating remotely by telephone and Adobe Connect.

One of the purposes of this Intersessional meeting of the GNSO Non Contract Party community is to create the opportunity, outside of the pressures and schedule strains of an ICANN Public Meeting to discuss longer-range substantial community issues and to collaborate with Senior ICANN Staff on strategic and operational issues that impact the community. The non-contract community leaders in attendance will be a healthy mix of ICANN veterans and several new participants who will be experiencing their first ICANN community meeting.

For this year, community leader meeting planners agreed to gather in Los Angeles, so that they could engage in a substantive dialogue about ICANN issues among themselves and with senior execs.

Whether you are attending the meeting in person or by remote means, within the pages of this wiki space, you will find general information about the venue, agenda, and related topics. If you find that something important is missing, please alert one of our GNSO Staff personnel and we will work to locate and publish the information as quickly as possible.

Schedule

Remote Participation

All the joint meeting sessions (that is, all sessions except for individual Constituency meetings that may be scheduled during the agenda "break-out" windows by each group) will have remote participation capability tools (telephone line and Adobe Connect Room). Proceedings will be recorded and transcribed and will be published on this wiki site in the appropriate areas. Individual Constituency meetings will follow the process of their particular community, and meeting minutes, reports or transcripts will be published on their own web and wiki pages as they are typically done.

Remote participation details will be communicated directly to the relevant lists and are published for all sessions **except** for the break-out sessions for individual Constituencies/Stakeholder Groups.
