Questions

Eduardo Díaz - ISOC Puerto Rico: Why are policy process different in each region if the function is the same for all?

Alfredo Calderon: How feasible would it be to have a unified policy process and reciprocal rules?

Eduardo Díaz - ISOC Puerto Rico: What is Autonomous System Number (ASN) & What is the difference between customers and members?

William Michael Cunningham: What is the Advisory Council? Comment--Not a lot of racial (and I would guess income and cultural) diversity on your adv council..

Eduardo Díaz - ISOC Puerto Rico: Do NRO Board Members in ICANN have vote rights?

John Laprise: Are audits conducted internally or by 3rd parties?

Eduardo Díaz - ISOC Puerto Rico: Question regarding transfers?

Alfredo Calderon: Are the instructional materials in other languages besides English?

Eduardo Diaz- What is the difference between End Users and Members?

Questions

Susannah Gray (SF Bay ISOC Chapter): The Law Enforcement relationship is interesting: agencies are working with the five RIRs to ensure WHOIS data is accurate to help them fight cybercrime. I hope there will be an update on this at ARIN 39!

Evan Leibovitch: This is, after all, ICANN "At-Large". What is the impact of ARIN on end users, and what are their interests in ARIN policy development?
