**WHEREAS** the At-Large Community of ICANN is deeply concerned about numerous identified problems with procedures related to Public Interest Commitments (PICs) in the current round of Generic Top-Level Domain (gTLD) applications;

**WHEREAS** these concerns have been expressed previously and repeatedly, having also been supported by comments previously made by ICANN's Governmental Advisory Committee (GAC), including its Communiqué of ICANN 51.

**WHEREAS** a subset of new gTLD applications -- notably in the fields of health, education, finance, charities and gambling -- have been identified by the GAC as particularly sensitive, requiring enhanced safeguards to build public trust;

**WHEREAS** the At-Large Advisory Committee (ALAC) has held a Public Comment Process, that has attracted a number of comments from the broader community that have been critical of (and raised concerns regarding) the PIC safeguard processes; and

**WHEREAS** ICANN has proceeded to sign contracts regarding some of these highly-sensitive TLD strings, despite the repeated concerns expressed by the ALAC, GAC and other organizations regarding the urgency of enhancing their public interest protections;

**BE IT RESOLVED** that the ALAC:

- **ADVISES** the Board of ICANN to immediately "freeze" (that is, cease contracting of or delegating) the 28 TLD strings identified by the GAC as requiring enhanced safeguards ("Category 1, Safeguards 1-8"), pending further community review and subsequent changes to the Public Interest provisions of the TLD agreements;
- **FORMS** a sub-committee, comprised of At-Large and other ICANN community members, to examine the current PIC mechanism, as well as any other Public Interest safeguards that may be deployed for relevant TLDs, and to recommend enhancements that better protect consumers and end-users in an expedited manner;
- **ASSIGNS** a liaison to the newly-formed ICANN Contract Compliance and Safeguards group (subject to its approval), in order to ensure that the At-Large Community is aware of the initiatives and progress of the Department on an ongoing basis.
