Niels ten Oever: (typo correction) A particular Human Right should not be considered in isolation since Human Rights are universal, indivisible, interdependent, and interrelated.

Kavouss Arasteh - Uncertain we should use METHOD applies - there is no METHOD. Delete METHODS FOR use THE DEVELOPMENT OF ANY NEW....

Niels ten Oever: The development of any new policies or frameworks that may be needed to apply the Human Rights Core Value will be dictated by the type of policy and how ICANN the organization and the community develop those policies.

Andrew Mack: sounds good to me as well

Cheryl Langdon-Orr (CLO): fine by me also

David McAuley (RySG) 2: fine here

Kavouss Arasteh - PROPOSES to whom? suggest remove PROPOSE and use DEVELOP.

Niels ten Oever: In order to do so ICANN the organization should develop a framework, which should include multistakeholder involvement, and regular review.

David McAuley (RySG) 2: propose includes the community more clearly doesn't it

Andrew Mack - PROPOSES TO THE COMMUNITY BROADLY.

Kavouss Arasteh - that works.

Niels ten Oever: In order to do so ICANN the organization should propose a framework to the community, which should include multistakeholder involvement in its development, and regular review.

David McAuley (RySG) 2: sounds good

Kavouss Arasteh - always have had problem with the last para. Not 100% satisfied but accept as the best we can get.

David McAuley (RySG) 2: Nice comment Kavouss, I also think this last para is good

Niels ten Oever - this completes our second reading. Unless there are objections I will merge this with the FOI and submit to the plenary for first reading.

Cheryl Langdon-Orr (CLO): excellent

Andrew Mack: double dip

Markus Kummer: Well done, all!

Niels ten Oever: full consensus of the subgroup, congratulations everyone

Kavouss Arasteh - We need to avoid modifications in plenary - this was hard won consensus here and any changes proposed in the plenary need to be brought back to this group and would suggest we make this clear in the plenary.

Niels ten Oever - agree - we will have to defend these documents in plenary.

3. AOB

Kavouss Arasteh - Great thanks to our rapporteur and members of the drafting team, as well as the secretariat.

Andrew Mack: here here

David McAuley (RySG) 2: Agree with Kavouss

Niels ten Oever: Fully agree

Markus Kummer: +1 Kavouss - well said!

Andrew Mack: well led Niels

Cheryl Langdon-Orr (CLO): good job so far people... important work... now needs to go to the next steps with Plenary and Pc

Niels ten Oever - lets not forget its not then end - if we get through the plenary we then go to public comment. Adjourned.
