

Streamline Process of Adding New gTLDs to Accreditation

ISSUE: D.3	Streamline process of adding new gTLDs to accreditation	
Priority:	Medium	
Issue/Request	Allow registrars to become accredited in additional gTLDs without signing a new appendix for each TLD.	Source: RAA-DT & Registrars
Notes	<p>Additional information regarding requests:</p> <p><u>RAA-DT:</u></p> <p>1) The trademark related license terms could be incorporated as a separate section within the body of the RAA, eliminating the need for a separate appendix.</p> <p>2) ICANN can create an electronic process that allows Registrars in good standing (i.e., not subject to an outstanding breach notice) to request the right to carry additional gTLDs, and ICANN will electronically submit the names to the registries of those registrars authorized by ICANN to carry their TLD. Any additional terms and conditions necessary for the TLD can be incorporated into the terms of the Registry-Registrar Agreement</p>	Source: RAA-DT
Discussion Points	Description	Date Discussed
	<p>Registrars propose eliminating use of TLD appendices in favor of an RAA that accredits registrars in all gTLDs.</p> <p>Registrars suggest identifying a process where ICANN to provide notice of non-renewal by specified time.</p>	<p>9 Feb 2012</p> <p>17 Feb 2012</p>
