

Internationalized Registration Data Working Group - Home

On 26 June 2009 the Board of Directors of the Internet Corporate for Assigned Names and Numbers (ICANN) approved a resolution (2009.06.26.18: <http://www.icann.org/en/minutes/resolutions-26jun09.htm#6>) requesting that the Generic Names Supporting Organization (GNSO) and the Security and Stability Advisory Committee (SSAC), in consultation with staff, convene an Internationalized Registration Data Working Group (IRD-WG) comprised of individuals with knowledge, expertise, and experience in these areas to study the feasibility and suitability of introducing display specifications to deal with the internationalization of registration data.

The Board further directed the IRD-WG to solicit input from interested constituencies including country code top level domain (ccTLD) operators and the Country Code Names Supporting Organization (ccNSO) during its discussions to ensure broad community input. Subsequently, the SSAC and the GNSO formed the IRD-WG.
