# Attendees

Apologies: /

## Agenda:

1. Discussion of "Proposed Principal Terms of IANA Intellectual Property Agreements"
2. Update on work in progress (PTI Articles, Bylaws, Naming & Intercompany Agreements)
3. AOB

## Notes & Action Items

### 1. IANA IPR

- In discussions with other communities on IANA IPR, their understanding was that we had agreed to the IETF Trust. There is pressure to move forward with the IETF Trust. Greg has worked through Sidley's assessment and proposed responses.
- Walk through "Key Issues" document row by row

**Action(Sidley):** Sidley to revise their comment based on the discussion today (to be solution-oriented)

**Action (Client Committee):** Plan is to communicate revised / resolved comments from Sidley and to invite IETF Trustee / Representatives from other operating communities to meet for a session of clarifying questions

### 2. Update on PTI-related work in progress

- Sidley working with ICANN directly on these documents
- Sidley provided comments on the latest versions.
- Sidley has no information on the status of naming and intercompany agreements. Next conversation with ICANN is likely to be about why these documents need to be separate agreements.
- Concern related to PTI Articles of Incorporation: Are ccTLDs that are not members of the ccNSO being ruled out in the PTI AOI's purpose language (too tied to ICANN)?

**Action(Sidley):** Sidley will send latest comments to the Client Committee list as part of keeping the CWG informed.

**Action(Chairs):** raise the ccTLD concern as part of public comment on PTI Aol from CWG to ICANN (see language above for detail).

### 3. AOB

None.

## Chat Transcript

Brenda Brewer: (7/7/2016 09:13) Good day all and welcome to Client Committee Meeting #22 on 7 July 2016 @ 14:30 UTC!

Jonathan Robinson: (09:29) Hello All

Grace Abuhamad: (09:32) Should we start recording?

Josh Hofheimer (Sidley): (09:32) Hello all

Grace Abuhamad: (09:35) Sidley folks -- Is Yael Resnick a new member of your team?

Josh Hofheimer (Sidley): (09:36) Yes, she is assisting me with the IANA-IPR related agreements. Thanks.

Grace Abuhamad: (09:36) Great thank you

Grace Abuhamad: (09:37) Doc is unsynced to allow for scrolling

Maarten Simon: (09:37) sorry,had to finalize other call

Holly J. Gregory (Sidley): (09:39) they are being very clear that they want us to find solutions. I think the trust IS currently permitted to own

Holly J. Gregory (Sidley): (09:42) Agree that IETF purpose contemplates ownership of intellectual property

Jonathan Robinson: (09:59) Neither Greg nor I are experienced in the working of the trust. We could ask for information as Geg suggests and / or ask for certain undertakings of future transparency.

Maarten Simon: (10:00) would be ideal to set up a meeting between trustees and Sidley

Jonathan Robinson: (10:01) @Maarten. Agreed. Or provide the trustees with the revised Sidley comments and seek their responses / assurances.

Maarten Simon: (10:02) i think a conference call or better even a live meeting would be beneficiary as that makes it easy for the discussion go back and forth

Jonathan Robinson: (10:02) @Maarten. Understood.

Jonathan Robinson: (10:03) How do Sidley feel about the utility of this? Is it necessary / will it be helpful to meet directly with one or more IETF trustees?

Holly J. Gregory (Sidley): (10:05) If that is the best way to get a sense of how they operate and what the accountability/transparency mechanisms are, it may be helpful.

Jonathan Robinson: (10:05) @Greg. OK. I now see that the documents are posted on the client committee mailing list

Jonathan Robinson: (10:12) @Josh. Seems like a reasonable proposal to me

Lise Fuhr: (10:14) Just joined - sorry to be late

Maarten Simon: (10:14) Hi Lise

Lise Fuhr: (10:15) Hello

Lise Fuhr: (10:16) Good idea

Grace Abuhamad: (10:17) I stepped away for a minute to take a call -- will need to review the recording for that action Jonathan -- apologies

Lise Fuhr: (10:20) We have 10 min left for the rest

Jonathan Robinson: (10:20) @Grace. Plan is to communicate revised / resolved comments from Sidley and to invite IETF Trustee / Representatives from other operating communities to meet for a session of clarifying questions

Grace Abuhamad: (10:20) thanks @jonathan

Greg Shatan: (10:22) We need to consider how to deal with the first drafts of the Agreements received from IETF Trust. I wouldn't want those to get put aside for very long. The sooner we can turn them, the more likely that our changes will be favorably received.

Lise Fuhr: (10:24) Agree

Jonathan Robinson: (10:31) @Greg. Do you have a suggestion to deal with drafts of agreements

Sharon Flanagan: (10:35) We also heard from ICANN that the draft PTI contract would be coming next week.

Greg Shatan: (10:37) Thank you all!

Josh Hofheimer (Sidley): (10:37) Thanks!

Maarten Simon: (10:37) thanks and bye

Lise Fuhr: (10:37) Bye all thank you

Holly J. Gregory (Sidley): (10:37) Thanks Jonathan and Lise and Greg and Maarten!
