3. ALAC Policy Update - Holly/Justine (20 min)

[Recently Ratified by the ALAC \(since last APRALO Monthly Meeting\)](#)

[DRAFT PTI and IANA FY21 Operating Plan and Budgets](#)

The ALAC noted that the proposed PTI and IANA FY21 Operating Plan and Budgets are aligned with the ICANN Strategic Plan, and are also very similar to previous years' budgets. An adjustment in the PTI budget is noticeable, including adjustments in salaries, services and other administrative cross-charges from ICANN to PTI or IANA.

However, the ALAC pointed out that a change is in process in the Governance of the Root Server System, these changes are not reflected in the proposed PTI and IANA FY21 Operating Plan and Budgets. The ALAC asked several exploratory questions in their response.

[Implementation Plan for the GNSO Consensus Policy Relating to the Protection of Certain Red Cross Names](#)

As a worldwide internationally recognized humanitarian aid organization, and one that has been regularly the target of those seeking to fraudulently extract donations, the ALAC believes that the International Federation of Red Cross and Red Crescent Societies (incorporating National Red Cross or Red Crescent Societies, and the International Committee of the Red Cross) should be given the benefit of protection to its various identifiers, designations and/or acronyms as intended by the policy changes proposed for implementation in the said updated consensus policy. This includes the proposed action to recognize changes to the official names of the Red Cross Society entities, including component names, in Eswatini and Macedonia, respectively, an action we view as necessary.

[Registration Directory Service \(RDS-WHOIS2\) Review Team Final Report](#)

The ALAC finds the report to include very useful information that should be used to guide the development of relevant policies, and appreciates the team's effort and supports the provided recommendations.

The ALAC highlights the importance of the recommendations related to the accuracy of data, and it strongly advises its acceptance by the ICANN Board. In light of the GDPR, the ALAC noted the importance of several other recommendations in the WHOIS Report encouraging a more proactive position of contractual compliance, especially in regards to DNS Abuse, as well as the team's findings with regard to law enforcement needs.
