CCT Meeting #51 - 24 & 25 June (ICANN59)

Join the Competition, Consumer Trust and Consumer Choice Review Team (CCT-RT) face-to-face meeting

The Competition, Consumer Trust and Consumer Choice Review Team (CCT-RT) will be meeting in Johannesburg on June 24-25, 2017, just before ICANN59 kicks off.

Under the ICANN Bylaws, the Competition, Consumer Trust and Consumer Choice Review Team (CCT-RT) Team is responsible for evaluating 1) how the new gTLD Program has promoted competition, consumer trust and consumer choice; 2) the effectiveness of the application and evaluation processes; 3) the effectiveness of safeguards put in place to mitigate issues involved in the expansion of the domain name space. This review is one of the key inputs to the re-opening of applications for New gTLDs.

The CCT-RT began its work in January 2016 and issued a set of draft fact-based recommendations for public comment in March 2017. This meeting will help the CCT-RT advance its work and analyze the public comment received as well as results of recent research data (including DNS Abuse Study Intermediate Report). The two-day face-to-face meeting is open to all, and is a perfect opportunity for the community to learn more about proposed improvements to the New generic Top-Level Domain (New gTLD) program and hear the latest findings of the CCT-RT. The Review Team plans to issue a second draft for public comment prior to issuing the Final Report.

You can attend this face-to-face meeting in person (Sandton Convention Centre, Committee 2), 161 Maude St, Sandton, 2196 Johannesburg) or virtually participate via https://participate.icann.org/jnb59-committeeroom2

Notes/Action Items

Face-to-Face meeting Day 1

- SIDN/TU Delft: Check on whether the rate of abusive domains using Privacy/Proxy registrations is increasing
- SIDN/TU Delft: Include more detail on abuse in p/p registrations
- ICANN ORG to inquire with Compliance Department on more detail related to registries' timelines for responding to complaints of abusive behavior.
- Public Comment follow-up
- SubGroups to review recommendations and consolidate related recommendations and eliminate duplicative ones.
- SubGroup to review wording to ensure that it's expressed in a manner so that the Board can adopt our recommendations Verbatim.
- SubGroups to review recommendations to harmonize terms such as "should" "shall" "must" (refer to https://www.ietf.org/rfc/rfc2119.txt) and consider that as the SubGroups work to standardize terms throughout the report.
- Clarify which group will implement the recommendations if Board approves (who is best to take this on during the implementation process)
- SubGroups to review assigned recommendations and add details on rationale and success measures (and especially regarding data we recommend collecting).
- CCTRT to review slides from INTA survey and share follow up questions to relay back to Nielsen who commissioned that study.
- CCTRT members to prepare for the ICANN Org meeting and bring clarification to the questions ICANN Org raised, or ask for clarification on ICANN Org comments.

Face-to-Face meeting Day 2

- Discussion on ICANN Org input
  - Rec.1: Redefine the recommendation and its rationale and success measures.
  - Add more clarity on terms such as "Global South, Underserved Regions", align with terms used by other groups e.g. Subsequent Procedures Working Group.
