WEBINAR: Cross Community Working Group (CWG) On IANA Naming Related Functions: Current Progress and Key Issues

Following the request of the National Telecommunications and Information Administration (NTIA) for ICANN to “convene a multistakeholder process to develop a plan to transition the U.S. government stewardship role” with regard to the IANA Functions and related root zone management, a Cross Community Working Group (CWG-Stewardship) was formed with the purpose of developing a consolidated transition proposal for the elements of the IANA Functions relating to domain names.

Since its last webinars on 3-4 December 2014, the CWG-Stewardship has received and reviewed nearly [60] public comments, and has continued to work on preparing its proposal for transition, including during an intensive [work weekend](#) on 10-11 January. The CWG-Stewardship is also in the process of reviewing its timeline for submission of a proposal to the IANA Stewardship Transition Coordination Group (ICG). The CWG-Stewardship will present substantial information regarding current progress as well as the key issues under consideration, in order to provide the community a preview in advance of further detailed work during the ICANN 52 Meeting in Singapore.

The CWG-Stewardship is holding two identical webinars at different times to facilitate participation across time zones. The webinars will take place on:

- **3 February from 14:00 – 15:00 UTC** (time zone converter [here](#))
- **3 February from 21:00 – 22:00 UTC** (time zone converter [here](#))

Webinar Details & How to Attend

The webinars will be run in an [Adobe Connect room](#). If you are interested in attending the webinar and would like to receive dial-in details, please send an email to brenda.brewer@icann.org and indicate which time you would like to attend the webinar. Please note that the webinar will be conducted in English and will be recorded and transcribed. Subsequently the transcripts will be translated in the 5 UN languages and posted on the CWG-Stewardship Wiki [here](#).

Chat Transcript:

Grace Abuhamad:Hi all! Welcome to the 2nd CWG pre-Singapore Webinar. We will start at 21:00 UTC.

Gary Campbell:Hi Grace

Grace Abuhamad:When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>". Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic

Cheryl Langdon-Orr:audio is choppy for me ATM

Greg Shatan:Audio fine here.

Olivier Crepin-Leblond:audio fine here too

Bernard Turcotte - staff support:audio good here also - on a poor line to boot

Cheryl Langdon-Orr:it has settled for me

Greg Shatan:Dingos stopped chewing the wires....

Cheryl Langdon-Orr:lol. Galahs or sulphur created cockatoos more like

Donna Austin, RySG:that'd be a pink and grey one Cheryl?

Grace Abuhamad:When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>". Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic

Panagiotis Paspiliopoulos:<QUESTION> It was mentioned that the best case scenario for CWG in order to present its proposal to ICG is June 2015. What if this deadline cannot be met? In order for the (very strict) timeline to be fulfilled, the deadline of June must be met, because the AoC finishes at the end of September. What happens if the deadlines cannot be met or the ICG will not conclude to a final (commonly acceptable) proposal? Will the WGs have more time to improve their proposals? And what happens if NTIA does not like the proposal? Does the US Congress play a significant role in the whole IANA stewardship transition process i.e. can the Congress postpone the process or create any other obstacles?</QUESTION>

Pat Kane:The AoC does not have a termination date

Pat Kane:at least not of September 2015

Greg Shatan:You are thinking of the IANA Functions Contract, which can be extended.

Panagiotis Paspiliopoulos:I know; I'm just examining all scenarios being provocative - sorry about that:)

Panagiotis Paspiliopoulos:sorry - I had a network failure. and I lost the "what if NTIA doesnot like the proposal" part

Panagiotis Paspiliopoulos:sorry about that - audio is fine now....

Olivier Crepin-Leblond:the NTIA has said that they will ask the community to amend their proposal accordingly

Bob Hinden:The US Congress has a big role here, NTIA is part of the US Government and the Congress (among other things) decides what NTIA's budget is.

Panagiotis Papaspiliopoulos:can you please remind me the link to the CWG wiki, please?

Marika Konings:<https://community.icann.org/x/37fhAg>

Panagiotis Papaspiliopoulos:thank you

Grace Abuhamad:When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>". Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic.

Panagiotis Papaspiliopoulos:congratulations! thank you for the very comprehensive presentation

Cheryl Langdon-Orr:good r

Grace Abuhamad:The Slides are "unsynced" which means you can click through now at your ease.

jorge cancio 2:could you please provide the exact URL for the presentation? thanks!

Cheryl Langdon-Orr:Webinar thanks Jonathan

Ernest Oforu:presentation was well delivered, kudos to all!!!

Panagiotis Papaspiliopoulos: @jorge: <https://community.icann.org/x/37fhAg>

Cheryl Langdon-Orr:thanks bye

Yaovi Atohoun:Thanks

Jonathan Robinson:Thank you all

jaap akkerhuis:Bye all

Philip Inglesant:thanks! excellent webinar

Steve Sheng:excellent webinar

Ron Sherwood:Thank you, all

Gary Hunt UK Govt.:Thank you for this excellent webinar. I note ther is another session scheduled for 21:00 UTC, is this a repeat of the same webinar?

Cheryl Langdon-Orr:not sure I agree with you there Lise. I see NTIA holding the trump cards here

Panagiotis Papaspiliopoulos:thaks Olivier!

Olivier Crepin-Leblond:ultimately the NTIA is the ultimate customer that needs to be convinced about any proposal

Panagiotis Papaspiliopoulos:what is the meaning of "the trump cards" sorry it's all greek to me! :)

Cheryl Langdon-Orr::-) :-)

Matthew Shears:also - NTIA expects that the community to have put in place and committed to a certain set of accountability enhancements at ICANN as a part of the transition

Panagiotis Papaspiliopoulos:thanx!!

Cheryl Langdon-Orr:well described Lise

Panagiotis Papaspiliopoulos:thank you Lise for the very comprehensive presentation and for answering my questions

Panagiotis Papaspiliopoulos:sorry for not being able to join you on singapore - I'll try to do it remotely

AAikman:QUESTION: Since the IANA contract will have to be extended anyway, why NOT take more time to be thorough about this?

Bernard Turcotte - staff support:bye all

Cheryl Langdon-Orr:thanks Lise bye all

Matthew Shears:thanks!

Greg Shatan:Bye

Panagiotis Papaspiliopoulos:bye all - safe travels & fruitful meetings

Sivasubramanian M:Bye
