Hello,

it's a pity that interesting ALAC sessions seem to be closed, in particular ALAC "One Day" on Feb 10 and the summit planning Feb 14. Since I'm very much interested I would appreciate getting permission to attend session 4 of the "One Day" at least.

Best regards

For the record, given the comment by Wolf, ALAC decided to open the Session (4) yesterday and we had a very productive discussion.
