Customer Standing Committee (CSC) Reports

The CSC ensures the satisfactory performance of the Internet Assigned Numbers Authority (IANA) naming function.

The CSC is responsible for monitoring Public Technical Identifier’s (PTI) performance of the IANA naming function against the service level expectations in the IANA Naming Function Contract.

The CSC analyzes performance reports provided by PTI and publishes its findings.

The CSC is authorized to undertake remedial action to address poor performance of the IANA naming function, and if performance issues are not remedied, may escalate the issues to the ccNSO and GNSO.
