Hi to All,

In order to familiarize IFRT members with the fundamentals of IANA functions, the IFRT had a webinar on 24 January of one-and-half hours.

As many of our At-Large community members are willing to be involved with this review and provide feedback, the following is the webinar’s recording and slides on the public wiki:

https://community.icann.org/x/EQOJBw

Hope that this will help our At-Large members to get more familiar with the IANA functions as well.

Thank you all.
Kaili

Hi to All,

After reporting on the #3 meeting of IFRT, some of our At-Large community members asked about directly providing feedback to the IFRT.

First of all, the IFRT wants to confirm that the community is very welcome to engage the IFRT.

Secondly, everybody is welcome to go to the IFR wiki where we have all the documents in pdf form, including those of the #3 meeting:

Rules of Engagement
Scope of Work
Work Plan

After that, you are most welcome to make comments and send them via email to: input-to-IFRT@icann.org

By doing this, you will be able to communicate directly with the team through the two co-chairs and staff.

I hope the above will help our At-Large community members to better communicate with IFRT and provide feedback directly. If you have any further questions, please do not hesitate to contact me anytime.

Thank you all.
Kaili
