2019 Strategic Planning Session (SPS) Action Items

SPS Segment	Entry Date	Action Item	Responsible Party	Additional Notes
Role and responsibilities of GNSO more broadly		<input type="checkbox"/> For the section 3.6 Speaking at Meetings of the GNSO Operating Procedures, <i>Council</i> to consider revising this section since it is not strictly enforced. <input type="checkbox"/> <i>Council leadership and staff</i> to consider documenting the internal operating procedures of the leadership team. Create a Chair/Vice-chair handbook, to help understand role and responsibilities. <input checked="" type="checkbox"/> <i>Council leadership</i> to make the Council meeting planning document public, to both help Councilors stay informed about upcoming topics, but to seek their input for meeting preparation. <input type="checkbox"/> <i>Staff</i> to investigate if the GNSO can serve as a Slack guinea pig in the already existing pilot effort within ICANN org. The use of Slack would be incumbent on a review of this platform first to understand how its threads would be archived and what level of access ICANN org would have to privileged or private communications between members. The GNSO Council will discuss whether document drafting can take place in Slack, but because the Council highly values transparency and accountability, the Council agreed that documents would need to be circulated on the archived email list to ensure that they are properly incorporated into the public record. <input checked="" type="checkbox"/> <i>Council leadership</i> to liaise with the Nominating Committee to understand from Appointees and Panelists, what works, what does not within the process, and better understand how the selection process takes place. <i>Councilors</i> to investigate how NCAs can be better informed; identify what communications they might not be receiving.		
How to manage Council's 2019 workload: strategies to increase effectiveness		<input type="checkbox"/> <i>Erika Mann</i> to send note to Council upon the adoption of the new copyright law and the potential impact on GNSO policy work / DNS. <input checked="" type="checkbox"/> <i>Council</i> to form a small team to work on the definitions in the Project Timing Document in relation to definitions of priority and level of effort. <input checked="" type="checkbox"/> <i>Staff</i> to update Project Timing Document to try and incorporate suggestions from Councilors.		
Wrap up and close of session		<input checked="" type="checkbox"/> <i>Staff</i> to identify what are low-hanging fruit in the PDP 3.0 implementation plan. Prioritize/color-code. Identify dependencies (e.g., reporting is needed prior to evaluation). <input checked="" type="checkbox"/> Recurring: <i>Small team of Councilors / Council leadership</i> to report progress of PDP 3.0 at each Council meeting. Establish project plan for implementation for PDP 3.0. (<i>Action Item taken on board by the PDP 3.0 small team</i>) <input checked="" type="checkbox"/> In order to better prioritize work, need to know capacity of Council, community, staff, <i>Staff</i> to get existing information from Berry Cobb about average commitment and <i>Council</i> to see if that can be utilized, leveraged, and /or updated. <input checked="" type="checkbox"/> Reviewed prior version from 2017 and must be refreshed to be useful <input type="checkbox"/> <i>Staff</i> to check if ICANN legal has looked into the insurance for WG members question.
