Newcomers / Onboarding

The one-stop source for newcomers!

Welcome from the Chair

The main strength of the ccNSO is the ability to listen to the community and the willingness to respond to the challenges and changes of the DNS environment, that has become more dynamic following the introduction of new gTLDs, and the many other evolutions of the Internet. Topics like delegation/transfer of ccTLDs, IDN ccTLDs, the performance of PTI, are just few examples of the items the ccNSO deals with in the mid and long-term. Your contribution to this work will be greatly appreciated.

Welcome on board!
Katrina Sataki, ccNSO Chair
